BY THE NUMBERS

by Riley Regan

When students think of math, they may imagine a monotonous, hyper-analytical teacher and a stressful classroom environment. However, Ms. Horst is crushing that stereotype. Her top priority at school is “working with students and helping them succeed,” which largely relies on reducing the stigma that comes with her subject. Utilizing her bright, bubbly personality and maintaining the idea that math is fun, she is able to help her students to not only understand, but also enjoy math. In addition to creating a friendly classroom environment, she is likely one of the most organized teachers at IHS. She sticks to a very organized schedule for each of her classes, keeping a spreadsheet of lessons and homework as well as folders with the upcoming work for each class. Thanks to her use of preparation time in the summer and at the beginning of each week, Ms. Horst’s classes never fall behind.

It is clear that Ms. Horst is not the average math teacher, but what you may not know is that she is also a dedicated parent. As the mother of two girls, nine-month old Maggie and four-year old Madelyn, the bulk of Ms. Horst's time outside of school revolves around her kids. Since Ms. Horst has such fond memories of her own childhood, she wants to create a fun life for her daughters as well. Whether it means going to the beach in the summertime, playing games with her kids outside, or introducing them to her favorite musician, Jack Johnson, Ms. Horst values a fun and active lifestyle for her family.

Between her determination to create a positive environment for her students and her commitment to her daughters’ happiness, Ms. Horst is an inspiring role model for those around her!

Mrs. Horst teaching Calculus

STARS, STRIPES AND SKIS

by Ellie O'Donnell

Although Ms. Fritz is new to the building, she has quickly become a favorite amongst her students. Her passion and dedication to teaching don't go unnoticed. Thus, her sophomore students started a trend last year: making "wholesome Ms. Fritz memes" in her honor.

Teaching has always been Ms. Fritz's dream job. "When I was younger, I used to sit my friends down on the last day of school and play teacher for them," she said. History was her favorite subject in school; it all started with learning about Ancient Egypt in the 4th grade. Her fascination with history carried over into her college years, where she got her degree in history and secondary education. Now, a long way from her 4th grade Egypt unit, today she loves teaching her AP US Government and Politics and American Survey classes here at Ipswich High School.

Outside the classroom, Ms. Fritz can be found on the ski slopes. "I love night skiing at Gunstock," she said. Her love for the mountains began when she lived in Colorado for some time after graduating college. She and her husband now take to the slopes of New England together, she on skis and he on a snowboard.

Looking forward, Ms. Fritz would love to continue teaching history and government, and potentially take on more leadership roles. All students should get to know the teacher whom many know and admire: Ms. Fritz!

Ms. Fritz following a compelling discussion about media bias in her A.P. US Government and Politics class.

HARVEY HAS IT

by Riley Regan

Señora Harvey always knows how to shake up her classes to make Spanish more entertaining. Frequently starting her classes with a short game or a song, or even her students' favorite, "aquí, allí, allá" warm up, Señora Harvey always brings more energy to her students' days and gets them excited about foreign language.

Although she's been speaking Spanish since she was seventeen and frequently enjoys dinners at Mexican restaurant, El Tapatio, much of Señora Harvey's life takes place outside of the Spanish speaking world. While her language and teaching skills are certainly extraordinary, her life outside the classroom is just as lively. Outside of school, she maintains an active lifestyle, working out frequently and taking care of her two golden retrievers, one of which is still a puppy. In addition to her active lifestyle, Señora keeps up the action in her taste in movies and TV. She loves *Star Wars* and the *Avengers* and likes to watch high-action sports like football when she has time.

Clearly, Señora Harvey brings the energy from her life into the classroom, something her students will forever be thankful for!

Sra. Harvey always strives to keep it fun and positive in the Spanish classroom.

MOVING IN THE WRIGHT DIRECTION

by Shannon Flaherty

This year's freshman class president has talent beyond her leadership skills. In addition to her important role in her class, Lexi Wright juggles being a skilled volleyball player, a gifted singer, and more.

"I knew that I wanted to make our grade more entertaining... I wanted to help to encourage everyone to enjoy spirit week and class activities," Lexi said. Running for class president would help her accomplish these goals.

Although she had a lot of encouragement from her upperclassman friends, some of Lexi's friends and family had mixed reactions when she told them she was planning on running. "A lot of people thought that I was going to be overwhelmed because I've had anxiety problems in the past." Despite these worries, she courageously ran, and won.

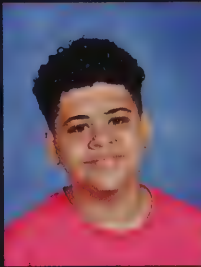

Before she took up a leadership role in high school, Lexi kept herself busy as a leader in the music and drama department throughout her middle school career. Challenges have come along with her busy lifestyle, but she's overcome them and grown as a singer and actress along the way. For instance, in October of 2018, she had a health problem that put her in the ER. At the time, she was the lead in the school play and, due to her circumstances, was unable to attend some of the rehearsals. However, Lexi's health improved and after working hard to make up for her missed rehearsal time, she gave a stellar performance in the stage production.

One of Lexi's fondest memories was her performance of "Shallow" from the movie *A Star is Born* with the IMS orchestra during her eighth grade year. "When I sang with the orchestra, it felt great, because I had had a really rough year. And at the end of the year, I wasn't feeling as ill as I had been previously," she said.

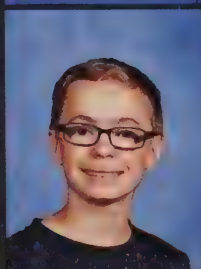

Lexi's dream for the future is to perform. Acting and singing have been passions of hers for as long as she can remember. "If I had to do something else, I would study interior design. I love to rearrange my room and decorate my home," Lexi said. Whatever path she ends up taking, Lexi clearly has a successful attitude, consistently overcoming setbacks with her positivity.

FILLING SHOES, PLAYING BLUES

by Shannon Flaherty

Some people call it passion, others call it talent; Elijah Bergner certainly has them both. His trumpet skills are no joke. Between practicing in his free time, playing in jazz band, and taking private lessons, Elijah takes his commitment to music very seriously.

It all started back in the fourth grade at Winthrop Elementary School when kids picked the instrument they planned on playing for the upcoming year. Kids were required to fill out a survey listing the three instruments they wanted to experiment with before making a final decision. "There wasn't really a thought process behind picking the trumpet. I wasn't that good at any of the other instruments, but I was okay at the trumpet," Elijah said. He made a quick choice, but it ended up paying off.

Over the years, Elijah developed a greater passion for his instrument. "The trumpet turned into something that was fun for me to do. I found it interesting and worthy of my time. I also think of it as something that can hold more for me in the future," he says.

Elijah can often be found in the band room practicing before or after school. His favorite song at the moment is "Down South Camp Meeting," by Fletcher Henderson, because it is more challenging than some of the other songs he has played. Though his main musical focus is the trumpet, Elijah also plays the guitar. He prefers to play Vamp songs on guitar because, "They are easy to sing along to," Elijah says.

Elijah's brother, Isaac, is a senior trumpet player who is leaving behind big shoes to fill at IHS. Undoubtedly, with his drive and passion for music, Elijah "Tiny" Bergner will be able to fill them in no time.

A PZENNY FOR YOUR THOUGHTS

by Shannon Flaherty

Chloe Pszeny is no stranger to competition, participating in a variety of different sports teams. The first team she joined was Varsity Field Hockey. "I think being a part of a team is all about making relationships with your teammates," Chloe said. "I was the only freshman on the team this year, but knowing all the seniors and developing relationships with them going into freshman year was really cool." For Chloe, being a part of a team is like having a close group of friends, and she knows she can go to her teammates for any advice.

Chloe's teammates have taught her a lot. "You don't put yourself first," she said, "it means doing something in order for the team to advance." Chloe's supportive teammates have inspired her throughout the season. "Two people who really inspire me are Heather Milano and Riley Daly. I always looked up to them because they play the same position as I do and they are amazing athletes." Chloe aspires to play like them one day.

Every great athlete experiences challenges on the field. "Being on a team with mostly seniors, I felt pressure, I wondered if they thought I wasn't good enough to be a part of their team," Chloe said. Nevertheless, she continued to play hard and set this insecurity aside, knowing that her work would eventually pay off.

"My happiest moment on the field is when I scored a goal the same day as my birthday," Chloe said. Her teammates were so happy for her, especially since she was the youngest player on the team and no one expected it.

Being the only freshman on the Varsity Field Hockey team, Chloe has already accomplished a lot in her short time at Ipswich High School. Between learning the ins and outs of being a part of the team and scoring goals on the field as one of the youngest players, Chloe is off to a great start, and has a bright future ahead.

FEARLESS FARLEI

by Tyler White

Most fifth graders' priorities are video games and playing outside. However, this was not the case for Farlei Marques. When he decided he wanted to play football for his hometown, Gloucester, at a young age, little did he know that stepping onto that field would start a promising athletic career.

Four years later, during his freshman football season, he earned his starting spot by game one. Farlei never expected to be a starter, especially at his young age. "Honestly, I wasn't confident at all that I would be able to grab a starting spot, being an underclassmen and younger than everybody else. It put a chip on my shoulder, but I think I did my job pretty well," he said.

Farlei has maintained his starting position through sophomore year, and believes, "[he] needs to prove himself at all times [for the sake of] his teammates, coaches, and... fans." Facing challenges on the turf has given Farlei insight, allowing him to recognize that "life can be tough sometimes, but if you persevere, you'll get through it." He also learned "not to be pushed around and to stand his ground." He believes these are essential to future success.

O'FLYNN'S ATTACK

by Tyler White

As one of five female athletes in her family, Claire O'Flynn understands what it means to be a hard worker. Her busy schedule demands she face high expectations in nearly every area of her life. Although the pressure is tough, Claire feels she can endure it. "Sometimes I feel pressure to succeed with schoolwork, but I know my family will support me no matter what."

Because of her family's support, Claire has exceeded expectations not only with her schoolwork, but also in sports. Claire played three varsity sports as a freshman (volleyball, basketball, and lacrosse). Although challenging, Claire believes it was beneficial; she learned from higher level players and elevated her game.

Volleyball is Claire's favorite and best sport. Starting as a middle hitter/blocker, Claire has played an important role on the successful IHS volleyball team, leading the attack and anchoring the defense.

STEIN STEPS IT UP

by Tyler White

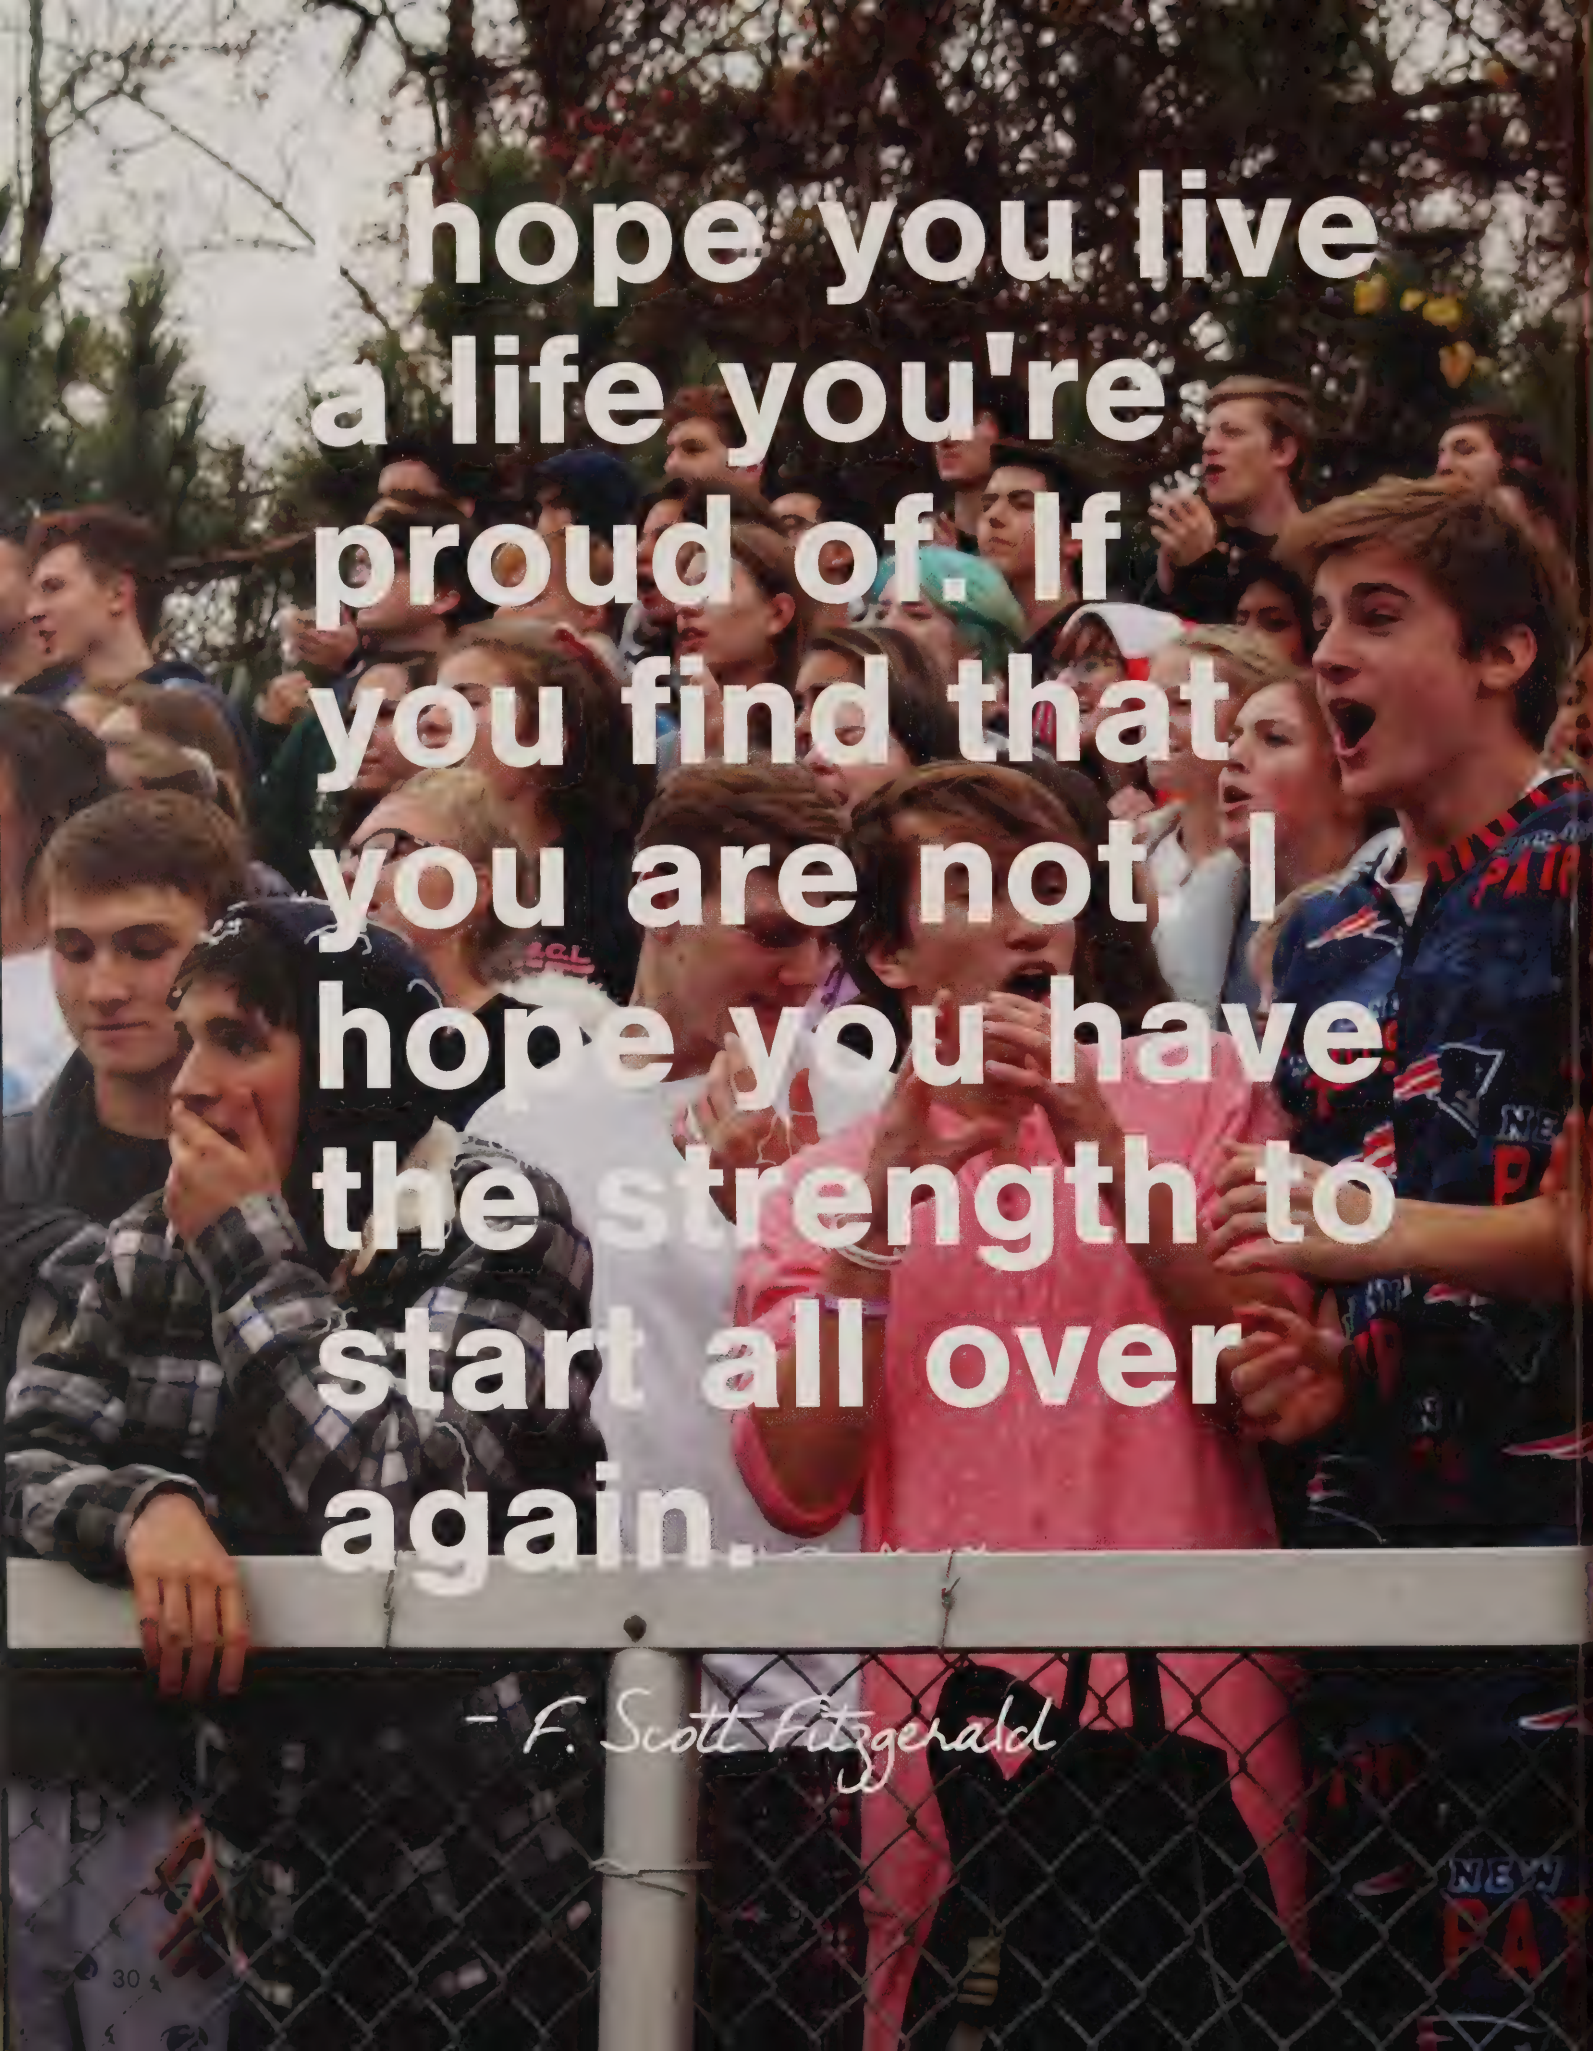

When Evan Stein started working at the Manchester-Essex Country Club as a caddy, he took an immediate liking to golf. This added a third sport to his already busy athletic career. When not on the golf course, basketball court, or baseball field, Evan can be found in Mr. Gallant's room working on his newest woodworking project. He also spends time "working on job sites," and "helping to build new houses," at his father's business, NWS Contracting. Juggling his many interests and commitments is not always easy. Between his busy sports schedule, his jobs, and his woodworking projects, Evan "works so much" that he "barely hangs [out] with friends outside of [his] coworkers." Despite these restrictions on his social life, Evan recognizes that his "job has really shaped who [he is] and has matured [him] and made [him] a better person." From all of these activities, Evan has not only learned important life skills in handiwork, but has developed responsible work habits and time management skills that will help him in the future.

(left) Evan follows through on his stroke during the Ipswich golf match.

(right) Evan competes in the annual dodgeball game during spirit week.

I hope you live
a life you're
proud of. If
you find that
you are not, I
hope you have
the strength to
start all over
again.

CATCHING KINDNESS

by Amara Durrell

People describe Reilly Coughlin as bubbly, positive, friendly, and genuine. She tries her best to be that way every day. Her biggest strength is her kindness, and she makes sure to treat others the way she wants to be treated. Reilly's biggest motivation is her mom who taught her to believe that "there is always tomorrow or something new coming next." Consequently, Reilly thinks that even when people have bad days and feel stuck, there is always more to come.

Although her biggest motivator is her mom, Reilly also admires her older sister as a model of perseverance. Like many, her sister has endured some personal challenges, but she got back up and bettered herself. "She raises such a beautiful family, I hope to be a mom like her someday. She can do no wrong in my book," Reilly said.

Reilly is a great example of how all students should be towards each other. She strives to make those around her feel comfortable and important. She cares a lot about others' feelings and makes sure everyone around her is happy. Although she has such a happy personality, she also struggles with anxiety. "I have good days and bad days but it definitely consumes me a lot of the time. I have been trying to find ways to cope and get better." Even when she struggles, Reilly still makes an attempt to be the best person she can possibly be, proving that sometimes the best strategy is to stay positive and keep looking forward for the next good thing.

Reilly Coughlin is also a member of the Ipswich Varsity Cheerleading team.

Reilly snaps a selfie showing the kindness in her smile.

FACING THE MUSIC

by Ellie O'Donnell

Some believe that in order to become a musical prodigy, one must play their instrument from an extremely early age. However, as Keigan Iwanicki exemplifies, this is not always the case.

Many students who grow up in Ipswich experiment with an instrument in 4th grade. From the cello to the trombone, the opportunities are endless. For Keigan, viola was an easy choice. Although "Hot Cross Buns" was the only piece the orchestra could play, she fell in love with making music right away.

As the years passed, Keigan became even more dedicated to her viola. During middle school, she took her playing to the next level, taking on solos and Junior Districts. Since her freshman year, she has consistently auditioned for and been accepted to Senior Districts, and is the first chair violist of the Senior Districts orchestra this year. She is also the principal player in the viola section of the IHS concert, symphony and chamber orchestras.

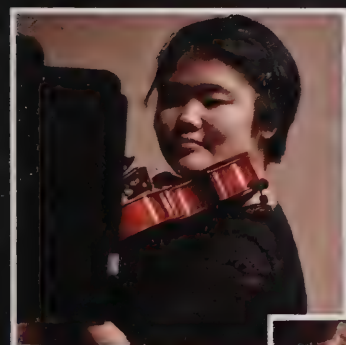

Currently the IHS orchestra director, Mr. Coelho, is pushing her further by incorporating her into the violin section. Despite the challenges that he imposes upon her, Keigan maintains that Mr. Coelho is her greatest motivator. Their shared love for music has made a huge impact on not only Keigan's career in music, but in her everyday life. Iwanicki even says, "If I didn't have such a role model in my life, I probably wouldn't be as ardent about music as I am today."

Although not every audition goes as planned and not every note is played perfectly, Keigan understands the value of musical growth. Iwanicki says, "It's not about the end product or what seat you get in an orchestra. It's about how far you've grown as a musician and what experiences you've gained from that journey that makes all the sacrifices worth it."

Iwanicki wants to continue playing music after high school. "I plan to major in viola performance for college, and from there on, I'm not quite sure. All I know is that whatever I do, it will involve music!" says Keigan.

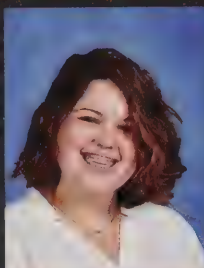

Keigan follows her sheet music during a chamber performance.

Keigan leads the IHS viola section during the winter chamber concert.

15 SECONDS OF FAME

by Ellie O'Donnell

One can usually find Nate Stevens in Mr. Gallant's room, joking around with friends Jack Macklin and Malcolm MacDonald. However, Nate takes on a new persona online.

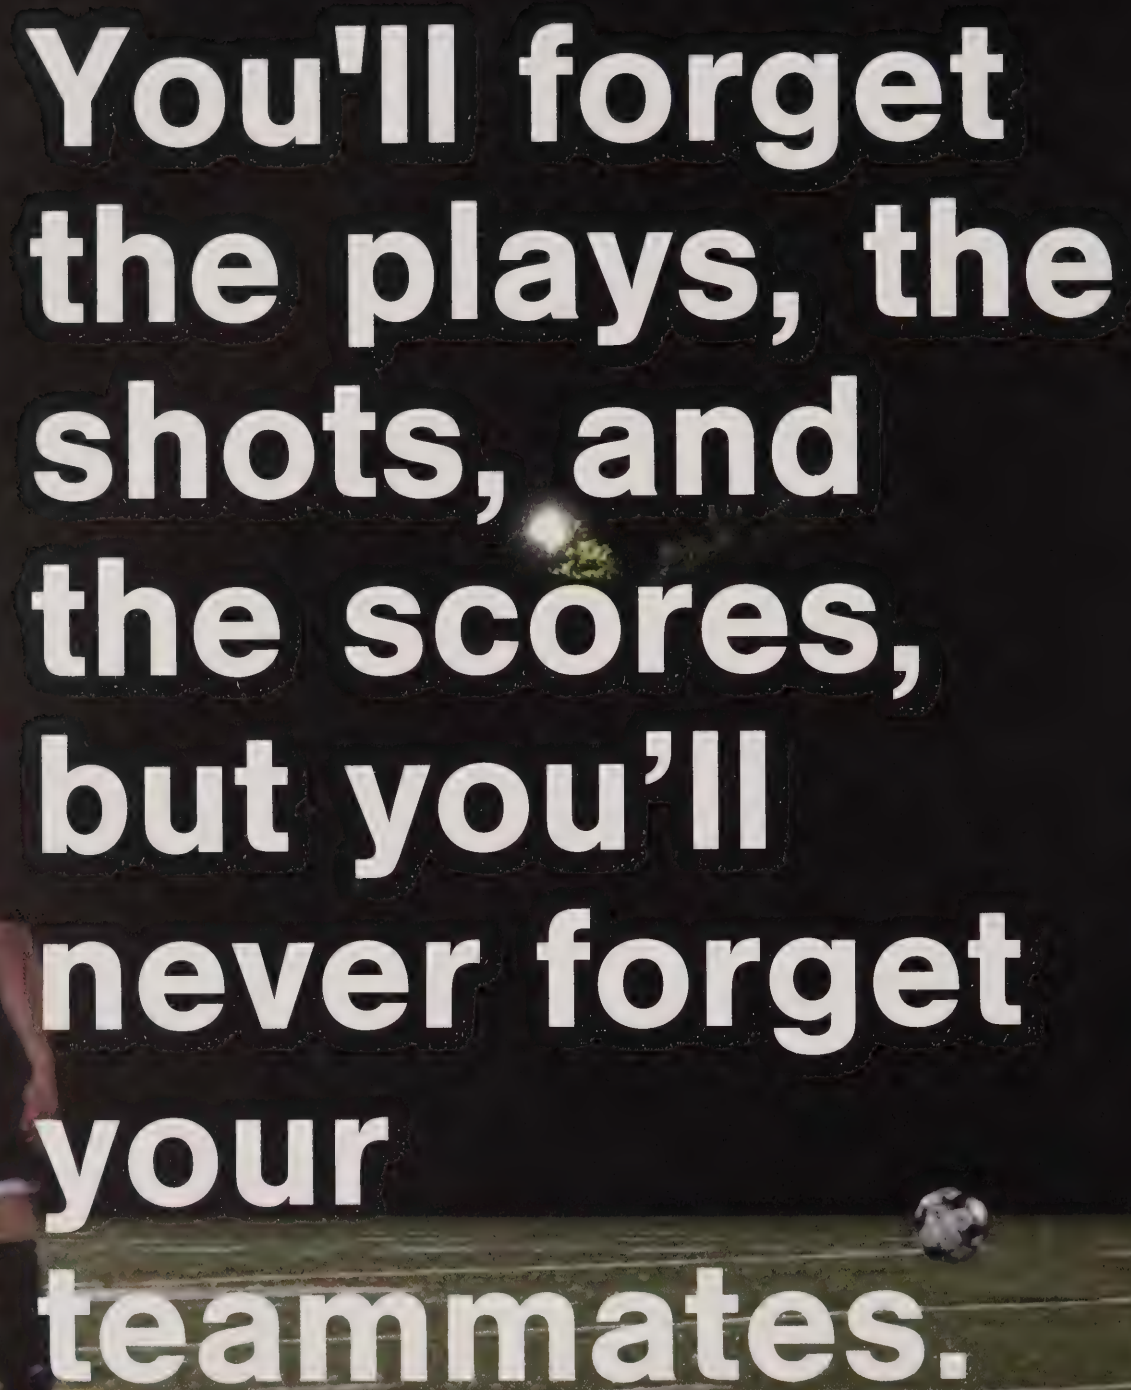

Stevens is a popular creator on the app TikTok, with over 65,000 followers and 780,000 likes. Nate's TikTok profile exploded at the end of 2018 and "@sillydogger" became a household name. His videos are both comical and entertaining, and therefore he has many dedicated fans. Comments on his videos range from "Yo, this is mega fresh," to "Obsessed with tha look."

Although Stevens enjoys making videos online, he feels as if his popularity on TikTok gives people an inaccurate perception of who he truly is. "When I blew up online, people began to talk about me, but not directly to me. That led to people I had never talked to before acting like they knew me. It's a strange thing to go through," Nate said.

Stevens appreciates the admiration of his followers, but he wants people to know that TikTok isn't his whole life. "I want to study graphic design in college," Stevens said, naming UMass Amherst as a favorite school. Between TikTok and graphic design, Nate spends plenty of time behind a screen. But that's not all there is to him; he is an important member of both the IHS football and track & field teams, and loves sports.

People everywhere, including many at IHS, wish to become TikTok famous. But Nate insists "it's not worth the hype." Although he will continue to make TikToks for the foreseeable future, a closer look at Nate reveals the truth: he is much more than an online influencer.

Hard Fought Yards

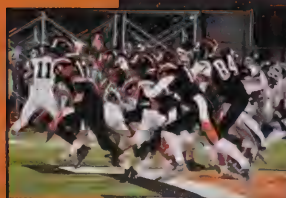

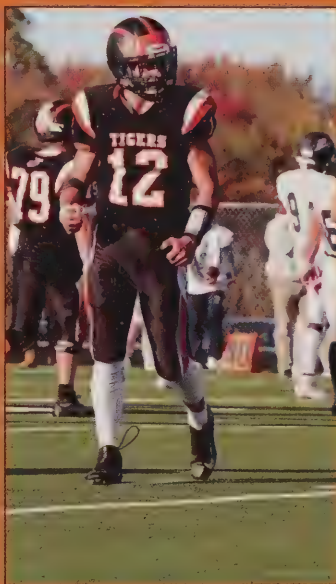

by Jack Gillis

The morning of Turkey Day, 2018, both Ipswich and Hamilton-Wenham readied themselves for the biggest game of the year. This was no regular game. They prepared for the coldest Thanksgiving game on record. In the visiting locker room, coaches and captains emphasized that being tough and not thinking about the weather would crown the Tigers with victory. Little did everyone know, there was a whole different level of toughness being utilized in the corner of the locker room where starting running back and safety, Cam James, stood.

Three weeks prior in a game against Austin Prep, Cam had severely injured his shoulder. Although he never went to the hospital for fear of the doctor would tell him he couldn't play, he knew something was wrong from the pain. Despite his immense pain, Cam wouldn't let anything get in his way of playing. Although no one else knew about the injury, Cam toughed it out. "I did it for the team who had been working hard all year, and I didn't want to let anyone down." After James played almost every play of the game and broke free for a 62 yard touchdown on their second play of the game, the Tigers shut out the Generals 36-0.

Shortly after the game, Cam went to the hospital where the doctors informed him that he had a broken collar bone, and osteomyelitis, a rare bone infection. Osteomyelitis is so rare that for every 10,000 people in the US, only two people have it. One can only imagine the physical pain that Cam went through while playing with his collar bone injury. Usually, one with this type of injury would be sitting on the couch at home or even in a hospital bed. Cam, however, played one of the most physical sports in America in arctic-like temperatures.

Cam, who many of his peers know as someone with a great passion for sports and a strong sense of pride towards Ipswich football, would do almost anything to help his team win. This year, Cam had big shoes to fill as he switched to quarterback to replace Ben Yanakakis who graduated last year. With this move, he helped the Tigers to reach the playoffs for a consecutive year. Now, as Cam enters college next Fall, he will leave the gridiron and continue his athletic career on the baseball diamond.

Tigers rush past the offensive linemen in attempt to block Pentucket's punt.

Sophomore, Charlie Henderson, burns a defender on his way to the end zone in a JV win over Triton.

The Tigers offensive line including seniors Alex Somers, Will Ginolfi, and Brian Trefry, worked efficiently all year to protect the backfield from opposing defenses.

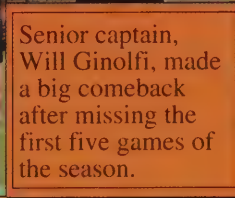

Cam James drops back, then scrambles for a deep shot.

The Tigers pump up the crowd during the pep rally.

Junior, Zach McCormick is a very versatile player, playing running back, defensive end, linebacker, and noseguard.

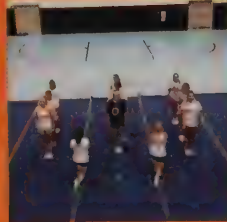

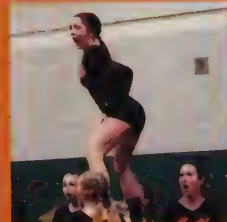

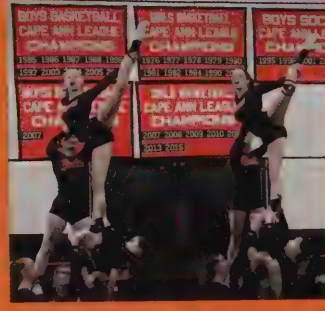

Senior captain, Will Ginolfi, made a big comeback after missing the first five games of the season.

ALL CHEER, NO FEAR

by Amaya Duvall

Quiet people tend to be the most powerful within. Megan Callahan is one of those people. In a sport where people have to use their voices loudly all the time, Megan finds herself out of her comfort zone.

While she likes to keep to herself most of the time, cheer forces Megan to perform in front of a large audience. Despite her quiet traits, Megan is a varsity captain of the cheerleading team. Since third grade Megan has stuck with cheer for 9 years. In youth cheer, she was mesmerized by the older girls and knew she wanted to be a member. Now a senior, Megan's work ethic has helped her fulfill her childhood dream. Cheer has changed Megan in ways she couldn't have anticipated, "I think it honestly has opened me up, I am very shy and quiet. The group that we have been in since sixth grade has made me more sociable and more outgoing, at least during cheering season."

For many, leaving high school can feel bittersweet. For Megan, she's not only leaving school, but leaving the teammates she has been with since she was nine. The people on this team changed me, made me happier, and made me open up more, and I don't really do that." Megan will continue to carry these moments with her and hopes to continue to have cheerleading in her life in some aspect.

ON THE BRINK OF VICTORY

by Emily Davidson

Whether on the Crane Estate trails or running through the countryside in Canada, Annika focuses only on the trail in front of her and "Truth Hurts" playing on repeat in her head. She may love team dinners and being Just Dance champion, but running is Annika's biggest joy.

Being XC captain this year pushed Annika to be a better runner and role model. Brink says it is her responsibility to "set the team mentality." By setting high goals and putting all her effort into every meet, the team can follow in her footsteps. This season, Annika broke her PR with a 6:47 mile pace and placed 9th in the divisional meet, qualifying for the state meet. She credits her outstanding accomplishments to her supportive team. But Annika is thankful to have more than one support system in her life.

Nothing makes Anni happier than going for a calming and challenging run - except visiting Canada with her family.

Annika travels almost every month to Canada. All her relatives live there and she is a dual-citizen. Annika says Canada is like her "second home" thanks to the strong family connections she has there.

Not only does Annika enjoy visiting her family, but she also keeps up her XC training while on vacation. In addition to relaxing morning runs in the countryside, Annika has run multiple 5K races in Canada.

While Annika's roots are in Canada, she has found a family in Ipswich among the XC girls. As captain, Annika has helped create a supportive bond between the team this year. "It's a small team, so you get to know everyone better. Running the same distance together creates a strong bond between the girls," says Brink.

Whether crossing the finish line at Cranes or visiting home in Canada, Annika has the support from friends and family all around her. Running on either side of the border connects the two places Annika loves the most.

Josephine Clapp sprints the last leg of the race.

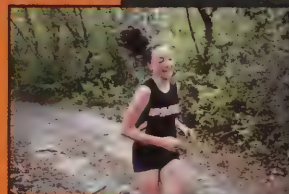

Hannah Clapp picks up the pace as she nears the finish.

Amelia Stacy charges through the course.

FAST FEET AND MUSICAL FINGERS

by Anna Jones

Guitar riffs running through his mind, feet pounding the ground, the finish line in sight, Dmitri Angell comes flying in, leading the team. It is the Division Six Championship Meet, and Dmitri considers this race to be the greatest accomplishment in his cross country career, due to his fast time and great stamina. Dmitri became passionate about running during the summer before his sophomore year. "I ran at Brazump, a summer running camp, with a bunch of other Ipswich runners," he says. A unique aspect of cross country is the camaraderie of the team, creating an unbreakable bond. This close brotherhood helps them work together to reach team goals. Dmitri says the team, "wanted to win the CAL small championship and make it to the all-state meet." Clearly their tight relationships paid off, as the boys were undefeated this season, achieving an impressive record of 5-0, making them champions of the Baker Division. They also won second place in divisionals, bringing them to the all-state meet.

Outside of running, Dmitri enjoys drawing-especially doodling in class. He has also found a passion in gardening with his family. Together, they grew over fifty pounds of potatoes. But the skill Dmitri wants to master most is the guitar. He loves the idea of "being able to play any song." He hopes to someday be able to pick up a guitar at a party and just start playing.

Dmitri began playing guitar in middle school because he wanted to learn the song "Let it Be," which he was singing in chorus. Since then, he has been playing "on and off for about three or four years." Dmitri is currently part of the Jazz Improv class, as well as an independent study called Guitar Harmony, with his friend Sean Cusack.

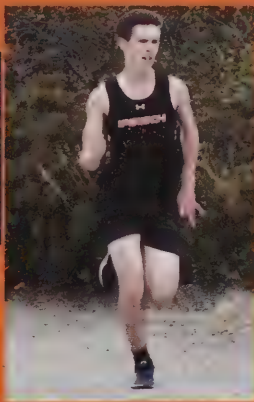

Similar to his diverse hobbies, Dmitri likes all different kinds of music, particularly R&B. He enjoys performing in front of people. His most recent performance was at Ipswich Illumination with Sean. Dmitri says he is working on forming a band with Sean and is hoping to do some gigs in the future. From fast feet to musical fingers, Dmitri's many passions have a lasting impact on his life.

KICKIN' KATIE

by Kylie O'Keefe

For as long as senior Katie Rokes can remember, she has always spent her time on the soccer field. Katie started playing soccer in kindergarten just as every kid did when they were young but now college bound, she finds herself taking things more seriously. It goes without saying that for Katie, sports are her life.

Katie decided to dedicate all her time and effort to the sport in middle school after realizing "it became too late for me to start something new so that pushed me to work harder at soccer. I wanted to become the best that I could be." As well as playing for town teams, Kate has gotten the opportunity to play with many elite teams across the North Shore. Katie has spent the past few years going to soccer practices, games and tournaments all over the country to help bring her game to the next level. Now a senior at High School, she is a captain and starting forward for the girls soccer team. It wasn't just her love and dedication to the sport that helped her stick with it.

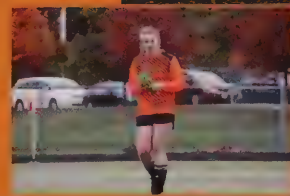

Katie says one of the best things about soccer was meeting and playing with her supportive teammates. One of her favorite memories from the sport was "making some of my best life long friends."

For the next 4 years, Katie will have to focus her efforts on something other than playing soccer. Katie is planning on studying exercise science at the University of New England. While Katie is passionate about continuing her soccer career, she is also passionate about helping others in need. After college, she hopes to become a physical therapist.

In just a few years, she will have to say goodbye to the sport she has spent most her life playing, but Katie won't stay too far from what she loves. Becoming a physical therapist will help her stay close to the sports world and most importantly, soccer.

BEST FRIENDS ON AND OFF THE FIELD

by Megan Callahan

Everyone knows Connor Perley and Trevor MacRae are best friends. The pair does everything together - even soccer. Sometimes, however, their soccer games don't go as planned. When this happens, the boys on the soccer team resort to an interesting strategy: randomly kicking the ball as hard as they can. This wild strategy has an even wilder nickname, the "T-Bone Boomstick," and resembles the spontaneous, fun, and memorable friendship between two energetic athletes.

Connor and Trevor are close, but what makes them best friends? "We don't do drama. We never have any complications. Being spontaneous and meshing well with one another helps," says Trevor. "I vibe with Trevor. Our personalities just click. Anytime we hang out, Trevor has the energy that brings out the best in me," says Connor. Whether it's school, soccer, or work, they're always having a blast.

Not every friendship is as grounded as Connor and Trevor's. "I don't have to worry about anything. I feel comfortable saying and doing whatever I want without being judged. I don't mind making a fool out of myself with Connor. It doesn't feel embarrassing," says Trevor. Connor feels the same way. "I can feed off of Trevor's energy. I hype him up to act ridiculous and crazy, and then I'm able to join in with him," he said.

Although they make lots of memories together off the field, they also create great ones on the field.

The best memory from the season was the second Amesbury game. Amesbury scored right off the bat. It started raining, and all the players were trudging through the mud, trying to play their game. Ipswich was down for the whole first half. "Dom's score halfway through the game gave us the energy to push through, and in the last 20 to 30 seconds of the game, Brian netted the ball for the win," says Connor. The comeback and the way the team shared the win speaks to their character and grit.

As their final season ends, Trevor and Connor know they've shared a special experience. "I'll take away the friendships we made on the team, and our spirit of unity. We've become a family," says Trevor. Connor has a very lighthearted perspective. "One thing I'll always remember is the T-Bone Boomstick. No matter what happens, you can always T-Bone Boomstick your way out of something in soccer and life," he said. Though there are always hard times, this pair can rely on one another to get them through.

Connor and Trevor have grown close in the past four years. Together they've been through the best and worst times of their lives. Though their time together on the field has come to an end, off the field, they know their friendship will carry on.

THIS COOKIE IS NO ROOKIE

by Ellie O'Donnell

Senior captain Heather Milano is notorious for her abilities on the turf, but many people don't know that she's also talented in the kitchen. Milano, whose name reminds some of the favorite chocolate cookie, loves to make brownies for her family and friends during her free time. "Baking gives me the opportunity to step away from everything else and just focus on making good food," Milano says. Her family motivates her to bake, including her Nan & her famous lemon meringue pie recipe.

Heather's family has done more than teach her recipes, however. Her cousin Olivia inspired her to start playing field hockey. Growing up, Heather played with her older cousin who now plays college field hockey at Longwood University. Milano began playing for club teams when she turned 8 and has played ever since. Her passion for the sport never goes unnoticed when she hits the field and she unavoidably stands out on the team for her talent and dedication.

Milano has been playing for the high school field hockey team since 8th grade, and she says that being a part of the team for so long has taught her how to ask for help from others and the importance of teamwork in all aspects of life. Heather lists teammate Amelia Krause as her primary motivator on the field due to their long friendship and a shared passion for the sport.

This cookie, whether baking or dribbling, acts as a prime example of someone who knows what it means to strive for success.

Maddie Baker reaches for the ball during her first season of high school field hockey.

GOLFING GRADY

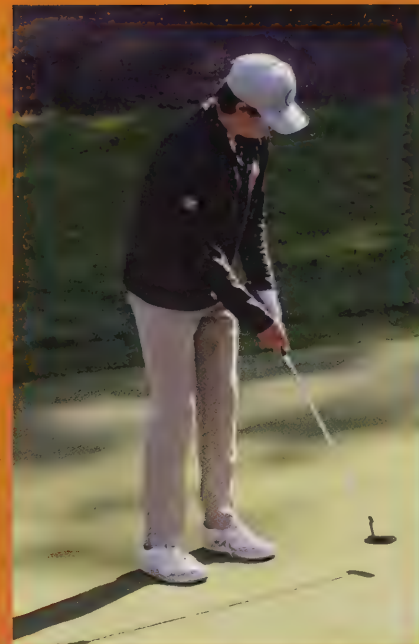

by Finn MacLennan

Some would call Bobby Grady a star in the classroom and on the golf course. This multi-sport athlete is on both the varsity golf and baseball team. Unsurprisingly, golf is Bobby's favorite sport.

After high school, he wants to continue playing golf college. His top choices include Saint Michael's College, Franklin Pierce University, and Saint Anselm College.

Like all good golf players, Bobby has been playing golf for a long time. He started playing because his dad worked on golf courses, including Black Swan Country Club and Hill View Country Club. He would go to work with his dad as much as he could and says that if he didn't get to play nice golf courses, he wouldn't be nearly as good as he is today. This proved to be important when he hit the green this year with IHS, playing the best golf of his life.

Ipswich was playing a very competitive Newburyport team at Rowley Country Club. It was a very nice day-Bobby even called it "golf weather". He and his playing partner, Aidan O'Flynn, optimistic about how they were going to play that day, wanted to score a combined 10 points. Through the ups and downs, and with the help of two birdies, they did exactly that. He achieved his best career score, which gave him renewed confidence in his goal to play college golf. Although the game started off cloudy, the help of his optimism and two well timed birdies got him to the "golf weather" on the other side.

Rowan Silva concentrates on his drive.

BUMPING UP THE VOLUME

by Addie Wittkamper

On and off the court, Emily Davidson has been building her confidence throughout her high school career. In both French class and volleyball, she has finally been able to find her voice. Her loud, take-charge attitude makes her who he is today.

As a freshman, Emily participated in an exchange program where she studied in France over the summer. She recalls being nervous, but also that it was one of her best experiences of her life. "The first two weeks were good. I had a group of friends, but they were all much better at French than I was, and they were all seniors," Emily says. Everyday, Emily had to work hard in order to improve her French speaking skills. Even though she was giving it her all, she had a hard time keeping up with the other kids. "Half the time, I didn't even know what they were talking about," Emily says. Eventually, Emily was able to find another group of people at a similar level to herself, and this helped her work through her French and keep improving.

In France, Emily was one of the youngest students. Similarly, she was one of the youngest players to make the Varsity volleyball team. As a sophomore, walking onto the Varsity court is nerve-racking. Even though she wasn't the loudest, she always worked hard to be the best for her team. "I was so quiet on the team during sophomore year... and now this year, people tell me I'm the loudest on the team," Emily says. Stepping up and being loud took Emily a little while to get the hang of, but with the support of her teammates and coaches over the years, she was able to find her voice.

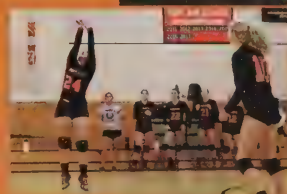

The team appreciates her good spirit and attitude, even when they are down. Emily is always positive, and goes beyond the duties of a captain to make everyone the best they can be. Whether she is playing volleyball, speaking French, or doing anything else, she utilizes her loud voice to be the best and most confident version of herself.

Junior, Anna Mossler, tosses the ball high and swings with power for another Ipswich point.

Senior, Grace DeBoer, gets ready for a beautiful jump serve on her senior night.

Junior, Jillian Gregory, sets up the ball for a kill by Abby Stanicek.

Senior, Lilly Sheridan, gets low as the ball is hit her way.

Senior, Abby Stanicek, gets up for another kill on the other team.

ATTITUDE IS EVERYTHING

y Kylie O'Keefe

A typical day for Tatum Galuski consists of school, sports, and smiling. Tatum is a three sport athlete for the Tigers, plays the bass clarinet in the band and spends countless hours volunteering and participating in school clubs. She is the epitome of a well-rounded student-athlete, but one special characteristic that makes her stand out from her peers is her positive attitude.

Tatum's busy schedule is filled with practices, rehearsals and meetings. Still, she always seems to make time for the people in her life that are important to her, especially her family and friends. She enjoys spending time with her family and looks up to them as they've taught her many valuable lessons. Additionally, her brother is one of the people that helped inspire her to start playing sports. Speaking fondly of him, Tatum mentioned, "I started playing basketball in 6th grade because I wanted to play on a team with my brother".

Now a senior, Tatum has come a long way from her middle school basketball days. Now, she isn't only a star on the court, but the field as well, as demonstrated by her field hockey and lacrosse career. For Tatum, picking a favorite sport is almost impossible. "It's really hard to pick, I played basketball first but if I did not play them all I wouldn't love them so much," she says. Playing so many sports has helped Tatum become a more well-rounded and dynamic athlete. A perfect mix of natural athleticism and hard work has helped her become a vital player in all of her sports.

Next year as Tatum moves on to school at Smith College, it is clear that her hard work and kindness both on and off the court will not go unnoticed. Continuing her athletic streak, she will be playing field hockey and lacrosse. There, she hopes to carry on her positive attitude and to keep learning important lessons that will be relevant beyond the field.

WALKER'S DOMINATION

Being a captain as a junior is almost unheard of in Ipswich basketball, but Nakhil Walker's undeniable skill and sportsmanship have paid off early. The role of captain comes with positives such as respect from teammates and getting announced as a captain before games, but it also requires great responsibility to be a positive role model and to boost the team's morale during tough times. Nikhil knows this, and says, "It's a great feeling, but it comes with pressure to succeed and be a good leader." Nikhil realizes the influence he has on his younger teammates, stating, "We're such a young team. We have two freshmen and five sophomores on Varsity." Clearly, a good leader is vital.

Nikhil recognizes that his work doesn't stop during the off season and continually trains to improve his skills. On top of independent training in the weight room, Nikhil trains with Jimmie Rae, the Ipswich Assistant basketball coach. "Coach Rae really helped me with my footwork and pushing down low," Nikhil added. Solidifying these skills have made him a better, more reliable player.

Starting at the Defensive End of the football team, Nakhil's athleticism extends beyond the basketball court. He has been a large part of the Tigers' recent successful football seasons. As a strong defensive player in basketball as well, Nakhil anchors the defense for the Tigers with his long reach and high intensity. Still, his contributions don't end there. He is also a reliable scorer on the offensive end of the court and grabs multiple offensive rebounds in every game.

Despite being a junior, Nakhil Walker's hard work and dedication as an athlete more than qualify him for the captainship. With another year left, we can't wait to see where he'll take the Tigers next.

Freshman Ray Cuevas elevates for a jump shot over a Rockport defender

Sophomore Charlie Henderson attacks the Rockport defense.

Senior Brendan Duffy prepares to shoot a free throw for the Tigers.

Junior Nikhil Webb-Walker goes up for a layup as three Rockport defenders crash.

Senior Will Vanderbilt plays low post defense for the Tigers with help from Sophomore David Loneragan.

Sophomore Charlie Henderson plays on ball defense as Coach Laroche shouts other defensive assignments.

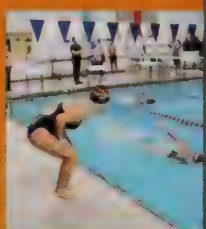

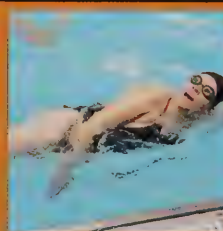

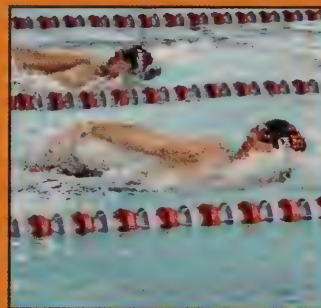

Ray Cuevas crosses over to try to get by the on-ball defender.

Will Vanderbilt drives on the Rockport defense.

SENIOR STROKES

by Megan Callahan

Brendan prepares for his race. He stretches behind the block, eyes closed, blocking out all distractions. Voices echo off the surface of the water and the crowd murmurs quietly with pre-race anticipation. He crosses his chest, claps his hands, takes one more deep breath, and locks his body on the blocks. The start is sounded, and swimmers fly into the pool, arms flailing and thrashing as they propel themselves through the water. Some lurch side to side in the freestyle, others launch themselves out of the water with every stroke. Still others lean, twist, and pull. Swimming is like no other sport. Asking our bodies to perform in an environment we aren't built for is a special kind of torture, but after four years on the swim team, seniors Grace Campanello, Elsa Anderson, and Brendan Hopping have grown to like the pain they feel underwater.

Because swim team athletes compete alone, one might think there isn't a team mentality. The three captains, however, prove this wrong. Elsa explains, "It's very much a team environment; we practice together and support each other. Even though we race separately, we work together to make sure everyone has their best individual performance. I believe cheering is just as much a part of the race as the actually swimming." Grace adds that "The team feels like one big family." Everyone brings something unique to the team and it creates a strong bond.

All three captains bring an element of leadership to the team. "I'm the person who works close with coach to organize, to pass info off to team, and to make sure everyone is where they're supposed to be when they're supposed to be," says Elsa. "I think my strength is giving advice. People come to me when they're nervous. I give support, and try to calm them down before the meet," says Grace. "I think I bring motivation to the team. I give speeches to get the team ready and to pump them up before a meet," says Brendan. Each thing the captains bring to the team's atmosphere works toward creating a successful season.

Every athlete has their go-to routine before they compete. Grace encourages herself, "Before a race, I usually tell myself that 'I can do this' and during a race I tell myself 'just keep going!'" Elsa takes care of her body to get her mind in the zone. "Usually before I compete, I drink a lot of water and make sure that I have everything ready to go. Right before I swim, I try to visualize my ideal race and make sure I know exactly what I want to happen. It helps me to get in the right mindset." Preparing for a race like this helps them push through their usual events. Brendan competing in the 100 Yard Backstroke and the 200 Individual Medley. Grace competing in the 100 individual butterfly, and Elsa competing in the 500 freestyle.

Though their high school swimming careers end this year, all three of these athletes are planning to continue swimming throughout college. They've had such a great experience on this team that they don't want to stop. Brendan, Grace, and Elsa all said that the best part of the team was the "positive energy we all create." This trio agrees swimming is different from other sports, which is why they love it so much. Brendan says, "I love the strong commitment we all make to this sport and how swim works out muscles that other sports don't." Elsa says, "I love how we all help each other accomplish our individual goals. It makes swim unique." Grace says, "I love how we bond over the cold pool, our caps not looking right, and coughing up water every practice. Most sports don't get to bond like we do and make so much fun out of it."

Evident in the three captains, swim team is comprised of people who have different strengths they bring to the pool. It's clear that the swim team is truly one big family. Although the three captains lend different strokes and strengths, they do so together and lead their team well.

Elsa Anderson dives into the pool to start her 500 Freestyle race.

Amelia Cormier performs an inverse dive.

Grace Campanello, stands on her block, ready to dive into the pool.

Brendan Hopping competes in the 200 Individual Medley.

CAPTAINS

SEEING DOUBLE

by Ellie O'Donnell

Ever since the womb, seniors Grace and Pierce DeBoer have been the best of friends. From wearing matching Halloween costumes to playing together at Pingree summer camp, the two have many fun childhood memories together. Today, you can still find the twins together, possibly fighting over who gets to the keys to their PT Cruiser. Even in their athletic careers, Grace and Pierce are 'side by side' on the track during the hurdle event.

The twins have been running for the Ipswich High School track team since freshman year, and have been all-stars ever since. Grace and Pierce share many track memories, both victories and losses. One that stands out to Grace is when she "tripped over the last hurdle during the state meet." Although she was devastated to lose her lead, it was an experience that has made her a stronger athlete, the kind she and her brother are today.

One very special teammate who graduated last year first sparked the twins' interest in the event. "Sam Fitzpatrick has been a huge inspiration for both Pierce and me throughout high school," Grace says. "Not having him as a part of the team this year has been hard for both of us!"

With graduation on the horizon, both twins have dreams to major in writing in college. Grace is hoping to attend George Washington University or Boston College, and Pierce would like to go to Northeastern University or George Washington University. Neither of them have plans to continue running track after high school, but their presence on the IHS track team will always be remembered.

Freshman Lucy Harmon makes her debut at Reggie Lewis Athletic Center.

Faith DeBoer and Olivia Novello make the big leap during their heat of hurdles.

Junior Monica Sirois sprints towards the finish line.

Freshman Dana Falardeau holds her own during her race at a varsity meet.

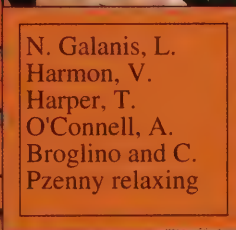

Angelina Rix keeps up the pace during the 4x200 race.

Let's Go!

By Anna Jones

"On your mark, set..." *Bang.* Feet pound the ground. Running as fast as they can, each person fights for the gold. "Let's go!" senior captain Alphonso Lopez cheers as his teammate flies around the track. He loves hyping up his teammates and encouraging them to do their best.

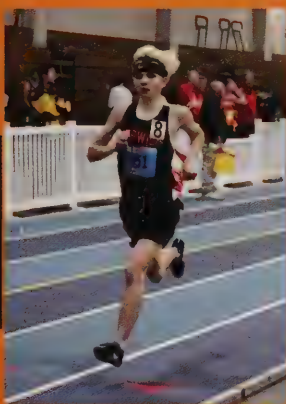

Alphonso would say staying positive is one of the hardest parts of track, but it has also been his most important takeaway. One of his favorite aspects of the track team is that it attracts many different kinds of people. "I always played soccer before high school, which is a small group, but with track there's so many different people to talk to."

Alphonso joined the track team his freshman year to help him stay in shape for soccer, but over the years he developed a passion for track. "Once junior year came, I actually wanted to do track to compete and to try to get points for the team," he said.

Alphonso became captain his junior year. "I know Coach Sue tries really hard and she relies on having some strong runners be role models." Through Coach Sue, Alphonso is motivated to be a positive leader. "I like trying to set the standard for the team," he said. "Track is all about times, so it's nice to think I'm helping in another way besides just hitting my goals."

Outside of track, Alphonso's job at Crane Beach has taught him many necessary life skills. He helps with parking cars, maintenance, and taking care of the grounds. In particular, Alphonso has had to learn the importance of patience. "Helping park I get a lot of mad people. Sometimes I've been yelled at pretty badly, and you have to just be patient. Whenever you get mad it just escalates the situation."

As a captain of the track team, Alphonso has made an effort to welcome all the new members of the team as well as maintain his friendships with the returning members. "I try to keep relaxed at all times if possible," he said. His relaxed mindset helps him have fun and bring a positive mood to the track team. Whether he is powering through a hard race on the track, or parking cars in the hot summer sun, Alphonso will always find a way to be positive.

- 4.) Jonah Orroth keeps a steady pace
- 5.) Peter Bauman launches the shot put
- 6.) Julian Colville dashes around the track
- 7.) James Robie flies over the bar

ROUTINE TRAVEL

by Heather Milano

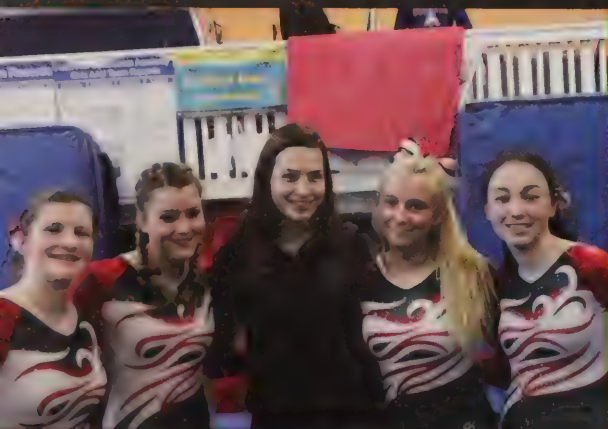

Although sophomore Charlotte Manolian loves to surf in Hawaii and travel with her family, her biggest passion is gymnastics. Eleven years ago, Charlotte decided to try out gymnastics simply because she lived next to the gym. From the moment she stepped foot in the gym, she fell in love with the sport. Despite many injuries, she has accomplished several goals and wouldn't change her sport for the world.

Life outside of the gym is just as exciting for Charlotte. Although her classmates describe her using words like "shy" or "quiet," she is still passionate about using her voice -- to sing. Charlotte loves music and expressing herself through singing and playing the piano.

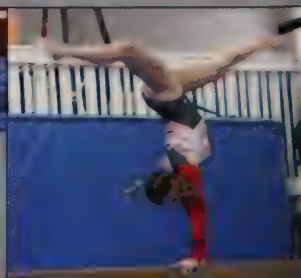

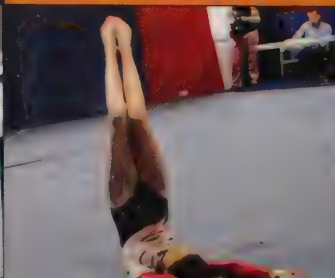

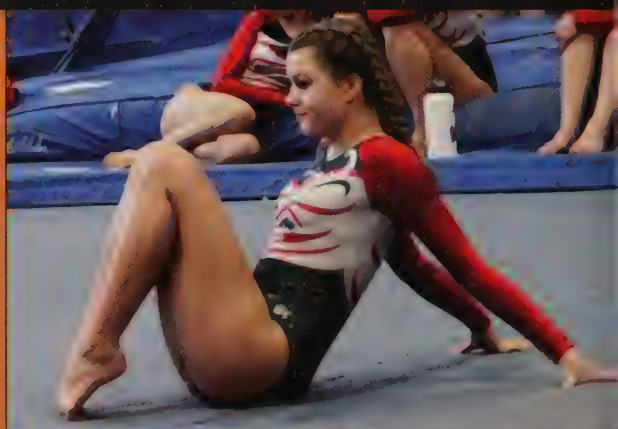

Charlotte also has a passion for travel, which she does often with her family. Always thankful for this opportunity, she never takes her trips for granted. Traveling "makes life interesting and offers so many new adventures and experiences that Charlotte says she "will remember forever."

Charlotte is grateful for her family both in the gym and at home. Although there are only five Ipswich athletes on the gymnastics team, they share a strong bond and are all very thankful for the opportunity to compete together.

(Left) Victoria Pekrul, Riley Turner, Charlotte Manolian, Aubrey O'Flynn, & Chloe Doonan

Bank
Most Convenient

For any average individual, waking up at 4:10 is allenging. For sophomore Aiden Arnold, however, waking before dawn is no challenge. His love for hockey is longer than his eagerness to sleep.

Still, Aiden and many of his teammates had to adjust their sleep schedule before the early practices. Aiden, who goes to sleep somewhere between 8:00 and 8:30 the night before practice, makes sure he always has energy for early morning practice and then school directly afterward. Aiden has no trouble waking at his 4:10 alarm clock because he enjoys going to practice. This is due to his enjoyment of the opportunity to meet new friends from the co-op Rockport, Swinwich, and Manchester.

Aiden's passion for hockey hasn't changed since he was seven years old going to the rink any chance he had while living in Newburyport. This year, Aiden played a key role on the team as just a sophomore and hopes to continue improving in his two years left to play.

FINE ARTS

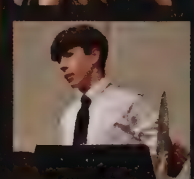

Concert Band

As the largest ensemble, the band is responsible for many events and activities. Rain or shine, the band always gets everyone excited at the football games along with the cheerleaders. They ensure the fan section is cheering loudly and supporting our school. Also, the band performs for Memorial Day and Veterans Day.

Led by Mr. Lee, the band is well-rehearsed and the members are dedicated to practicing their music to be able to perform to the best of their ability. The band showcases their talents through several songs in numerous concerts throughout the year.

Many members of the band are also members of the chorus, orchestra, athletic teams, and extracurricular clubs and activities. "Band kids" are undeniably hardworking and growing their talent and musical excellence every day.

Musical Mind

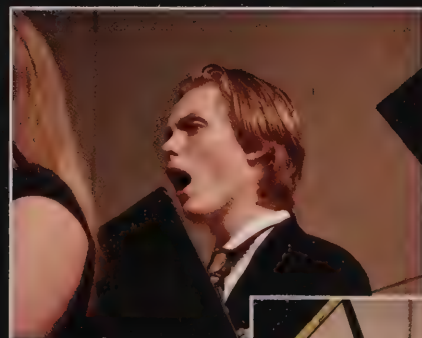

by Heather Milano

Who would have guessed a free lime green piano from Doyon Elementary School would start an unmatched dedication and passion for music? Julian Colville first began his music career on a "broken piano with one key that always breaks, yet has a lot of character." Julian, voted "Most Musical" for the senior class, is in every ensemble offered at Ipswich High School.

There is no doubt that Julian loves music. "If you take music and track out of my life, it's empty. There is nothing else I do," Julian says. Of course, Julian works hard in the classroom as well, but playing music and running are the two things Julian lives for. Julian explained how music is "fun, but also how I express myself. I often channel my emotions into my music." Julian wants to continue his music career, possibly double majoring in music and political science.

One of Julian's biggest goals is to create music people love. Too often, musicians create crazy songs just because they can, but if the audience doesn't enjoy it, what is the point? For Julian, pleasing his audience is more important than keeping things exciting for himself. "Some of the best songs are the same three or four chords repeated over and over again," Julian explains. In fact, he had the opportunity to accomplish this goal when he composed a piece for the concert choir.

No matter where Julian is, you can always find (or hear) him tapping a beat on his desk or humming a tune. While this may appear strange to some, music is just as natural to Julian as breathing.

50% of students have been playing their instruments for more than 6 years

70% of students take private lessons

55% of students hope to continue music in college

Fine Tuning

by Annie Gillis

Music has been a passion to this bright, intelligent teacher ever since he was just a child listening to his mom's old records. His young ears fell in love with the sounds of orchestral instruments, and he refused to go to a high school without an orchestra. As Coelho grew up, he developed an ear for fine tuning more than just the technicalities of music, and learned to love the expressive aspect of music. When offered a job at Ipswich, he said, "I would have killed to be a part of this orchestra when I was in high school." He was excited to become the new orchestra teacher for the reputable Ipswich music program and spread his passion.

Coelho's passion is demonstrated in his dedication to his job. He said, "when I was in high school, I worked 100% for the teachers that put in their own work." Coelho is that teacher, explaining why everyone respects and works hard in orchestra in reciprocation for his commitment.

Coelho comes from a family of Portuguese immigrants, and says, "I was raised to never give up on anything." He inspires his students to do the same, explaining to them that hard work is perfection in his eyes.

As Coelho reflects on his time at IHS, he feels his hard work has paid off when recalling how tiny the orchestra was in the beginning. Today, the orchestra "can no longer fit in the room." Coelho inspires people to stay in the program by creating a unique musical environment. He encourages a strong work ethic while emphasizing the importance of using music to express and de-stress. He writes, "I still hold people to standards, but want my students to have a place to go when they're having a bad day." As far as the future, he hopes to expand upon the foundation he has created by striving to make orchestra more like a family.

Coelho's outstanding musical abilities have taken him far more places than IHS. He attended the Boston Conservatory, performs at many weddings, conducts the Cape Ann Symphony Orchestra, went on tour with Josh Groban, and recently auditioned and was accepted into the Tran-Siberian Orchestra. While Coelho continues to reach for the stars, he hopes to stay at IHS forever.

Concert Choir

Concert Choir is the place to be. This diverse ensemble is very inclusive, accepting all members from different grades, ages, and backgrounds. Concert Choir has 74 members who are all unique in their own ways. This ensemble includes team captains of varsity sports, leaders of extracurricular clubs, members of math league, community volunteers, and much more. Despite their differences, choir director, Ms. Frost, brings everyone together.

Many members of the concert chorus are also in select ensembles for chorus, band, and/or orchestra. In fact, the choir has 14 students who are also in the orchestra and 18 students who are also in the band. With all the time and effort these students put into their work, there is no doubt that the concert choir is overflowing with talent and dedication.

From Broadway to Beyonce

by Heather Milano

Music brings all walks of life together. From musicals such as *West Side Story*, *Cats*, and *Rent*, to contemporary pieces, everyone loves music. However, music also allows for individual tastes and talents. There is a variety of performance entertainment and Ipswich encompasses them all.

Senior Lydia Brendel, a soprano, loves musicals and shows on Broadway. As the President of the International Thespians Club, Lydia is very comfortable on stage and enjoys incorporating music into her acting. "I love the moments in acting where the emotions are so powerful that the only way to express the emotion is through song." Lydia has dedicated countless hours to voice lessons, theater rehearsals, and various music groups.

Senior Kayla Laddin, an alto, loves all genres of music. Focused more on pop and rap music, Kayla is Beyonce's biggest fan. While performing on stage requires sticking to a plan, Kayla also likes to let go and sing as loud as she can in her car to express herself. The thing Kayla loves the most about singing is "how personal it can be. Everyone's voice is so unique." Kayla spends most of her time in yoga studios and in rehearsals for select groups such as Bel Canto and senior districts, and of course, in concert chorus.

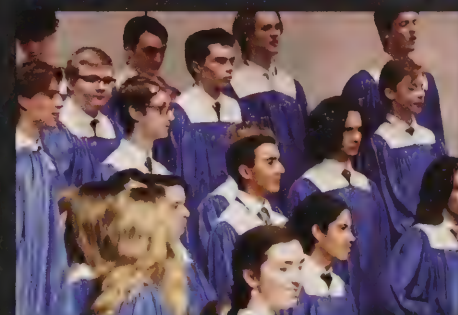

Although Lydia and Kayla have varying interests, their talents harmonize when they come together in the concert choir. Lydia's love for musicals and Kayla's love for contemporary music embody what makes the IHS music department great. Diverse talents and interests make for a well-rounded and capable ensemble.

The Last Leaf

You may have heard about *The Last Leaf* in an English class, as it is a widely known short story by O. Henry. This story circles around a young woman, Johnsy, who falls ill with pneumonia while living with her friend, Sue. Back in this time, there was no cure for pneumonia. The belief is that all Johnsy could do was wait out the pneumonia until her inevitable death occurred. The title of the play comes from the ivy vine outside Johnsy's window. Johnsy says when the last leaf falls, both herself and the vine will meet their demise. As these sad thoughts consume her, Johnsy's neighbor, an artist named Behrman, tries to put joy and optimism back into Johnsy's life.

O. Henry's signature is plot twists and the shock factor of the endings, which is something you can expect when seeing "The Last Leaf".

"When the last leaf falls, I must go, too." -Johnsy

From the Spotlight to Behind the Scenes By Gabby Ramasco

Not everyone enjoys the theater world. Being on a stage under spotlights and having hundreds of lines to memorize can be overwhelming to many. Jason Rollins didn't always enjoy this, even describing himself as very introverted before freshman year, when he started acting in IHS productions. Now, he says that he loves "the extra level of 'hey, I'm out in the spotlight!'"

The Last Leaf is a powerful story with a message of the importance of friendship. For Jason, as the director, the message about friendship stuck with him throughout his journey with the play. The idea of "how far friends are willing to go to help each other out," resonated the most with Jason. He describes his experience of working with a small cast like "having a family by the end."

Jason sees himself becoming a professional actor down the road. "I would like to be an actor in the future, but that isn't a very welcoming career." The lack of availability in jobs is apparent to Jason. However, he plans on putting the work in and paving a path for himself. His goal is to attend Emerson or UMass Amherst to kick start his career. Directing is another opportunity, Jason says, "I really enjoyed directing, which was something I wasn't entirely expecting."

Wherever Jason goes, his ability to "wear himself on his sleeve" has made his acting and directing career at IHS a success.

Shakespeare's Got Talent

Everybody needs a little comic relief in their life, and *Shakespeare's Got Talent* is just that. A mash up between Shakespeare and *America's Got Talent*, this show will make you laugh. The actors get to play Shakespeare characters, incorporating well-known references for the prestigious theater community. However, instead of the usual seriousness, the characters are letting loose on a talent show.

This Shakespeare parody lets the actors shine with a minimalistic set design. The normal Shakespeare melodrama of family feuds, duels, and deaths turns into a fun show with pillow fights, and maybe a rubber chicken or two.

"O Romeo, Romeo, wherefore art thou talent?"

"I hope Juliet has a restraining order on this guy."

"A complete nutjob, if you ask me." -The Fool

Double Double, Toil and Trouble by Gabby Ramasci

Sophia Stasiuk and Cece McElwain are two juniors who found a family and a great hobby within the theater community at IHS. "There is a bigger sense of community since everyone went through this funny play together," Sophia says. Cece also loves "the sense of family" in the theater community. Two very different individuals came together to work on this play and directed a masterpiece for all to enjoy. Having two directors had a positive impact, as Cece and Sophia both directed "*Shakespeare's Got Talent*"!

Although putting together a show is fun for both the actors and the directors, the importance of theater goes beyond this. Sophia is "very passionate about community service." She is part of a youth group that travels to New York every year and work with a food pantry and HIV awareness. "I am part of Interact, and I would love to be a board member and get more involved," she says. For Sophia, theater is all about sending a message to audience members, and is yet another way for her to spread positivity and help others.

Cece's creativity branches out beyond her activity in the Drama Department. She also finds enjoyment in the arts and humanities. As member of art club, Cece's hobbies also reflect her love for the arts. Connecting to historical references in theater, AP US History with Mrs. Smith has been her favorite class this year and social studies has always been a class she has looked forward to. Doing a spin-off of Shakespeare's plays allowed Cece's knowledge of history to really shine through in her directing.

Clearly, when it came to these two talented individuals, opposites attracted. Their collaboration and passion for theater shines on stage, making "*Shakespeare's Got Talent*" a success!

The Door

One of the best parts of theater is the intense impact that a show can have on its audience. People can watch a play and see themselves represented on stage, which is extremely powerful. For a show like *The Door*, the takeaway can spark change in our world. An unresponsive grandmother and her teen grandson sit in a dimly lit apartment for the entire play. The grandson does everything he can to try and get his grandmother to respond and snap back to reality, but nothing seems to work.

The unexpected ending and the show's chilling message left the audience speechless, sitting in a contemplative silence before a thundering applause. The message behind *The Door* is incredibly important and gives the audience insight into tragedies within the LGBTQ+ community still being faced today. This show will leave you feeling raw and full of emotion.

"Many people are ignoring that truth. This is the door that must be opened and this play throws that door open wide." -Paul Elliott, Author

Acting, Singing, Directing, Oh My! by Gabby Ramasci

Many teens struggle to find out where they fit into the world. Finding a career may seem impossible to some, but not for this performer. Senior Lydia Brendel was born into the theater world. Her parents were a "big theater scandal" as her mom was a director and her father was an actor in their community theater program. Lydia describes herself as the "perfect mesh" of her two parents as she enjoys both acting and directing.

When Lydia directed *The Door* this year, she started out with a pretty negative perspective on the play. "I hate this, this is a smack in the face to everyone, I don't like it!" was Lydia's first response to this play. Soon enough, the takeaway Lydia received from the play to "always keep your head up," which led her to love it. The idea of facing the truth of the world's problems motivated Lydia to make this play a hard-hitting one.

High school has only been the beginning of Lydia's promising acting and directing career. Lydia has been accepted to The American Musical and Dramatic Academy (or AMDA) in New York City. "I plan to be in New York acting for as long as I am physically able to," she says.

Lydia has been acting since she was young, and is ready to do so for the rest of her life. Her passion has led her to her dream career, and we can't wait to see what parts her talents bring her in this exciting next step.

Tech

Without the tech crew, you would be watching a play in the dark with no sound, props, or sets. Doesn't sound fun at all, does it? The IHS techies are some of the hardest working people in our school's productions. Though they are behind the scenes, their dedication to theater is undeniable. They work late on school nights, weekends, and every day for two weeks (known as "tech week"). Thanks to their hard work, our theater program has won awards for our sets and lighting.

Everything we have is thanks to the techies. Not only do they work on the plays and musicals, you may also see them backstage or in the booth for the talent show, dance recitals, school assemblies and so much more. Every hour they put into a performance makes the show that much better. Thank you techies, for our top notch shows!

Technicians Katelyn Moseley, George Gallagher, Lucy Platt, & Elizabeth Bova

Lights, Camera... & Math?

By Gabby Ramasci

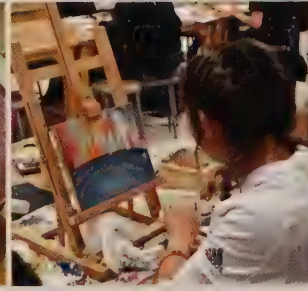

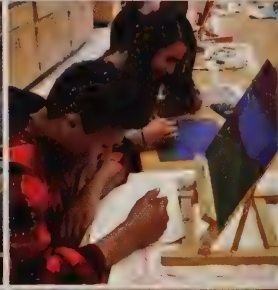

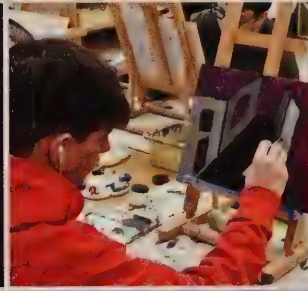

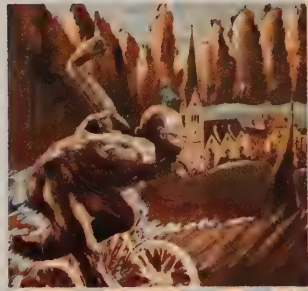

Sophomore Katelyn Moseley has been doing tech since sixth grade. She had considered auditioning for the play in sixth grade, but was intrigued when she learned about the tech crew. She's been in love with tech ever since, saying, "It's really cool to see everything together. You have the actors' blocking and the set done for a while, but it's so nice to have the actors, lights, sound, and sets all come together in the end."

Outside of the tech booth, Katelyn really enjoys math: she loved Geometry last year, and is currently taking Algebra II and AP Stats as a sophomore this year. "One of the reasons I liked geometry so much was because everything I did in tech was applied with geometry." Tech has led Katelyn to enjoy math and science a lot, and she hopes for a career in engineering or medicine in her future.

Set construction is Katelyn's favorite part of tech. In this area Katelyn has used a lot of her geometry skills to get the end product she desired. "In high school, my favorite set I've worked on is probably *Seussical* because Lucy and I designed that set all by ourselves, and we did so much with it. I personally think it came out really well since it was student-designed and built," Katelyn says. Through Katelyn, theater arts and math have come together in tech, and, using her math skills, Katelyn's set designs never disappoint.

VISUAL ARTS

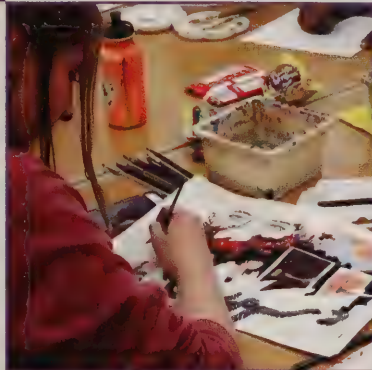

Heaven Lee Draper focuses on a black and red oil painting.

Jenelle Radzim proudly displays her newest ceramic pot.

Helia Silveira paints an abstract fairytale creation.

Ashley Barrios plans her next project as Bryn Weaver refines her painting.

A Passion for Fashion

Anywhere Jack DeMarco goes, he goes in style. Throughout high school, Jack has developed a unique fashion sense. He loves vintage 80s looks and is a big fan of metal and rock band graphic t-shirts. He loves the design process behind the graphics. He says "there are still cool designs that come out nowadays, but there was something special about it back then."

In finding his style, Jack also found his passion. He loves thrifting and selling clothes. He collects from Craigslist, Facebook, Goodwill, and Savers. "I was at thrift stores and started finding vintage stuff. Then I did some research and realized they are worth money. I like clothes, so I thought it'd be fun to sell them so I could make money to buy more." Jack sells his thrifts on Depop and eBay and trades with friends.

This year, Jack decided to revamp his products with a personal twist. He took Art and Design along with Portfolio to strengthen his foundational skills and work on designing his own clothes.

Jack hopes to study marketing in Portland, Oregon. He wants to combine the business skills he's learned from selling clothes with his artistic eye. Wherever life takes him, Jack will always bring his passion for fashion with him.

CLUBS

ENVIRONMENTAL CLUB

The environmental club meets monthly as a large group and smaller sub-committee groups also meet every other Friday to discuss more specific goals.

The club works on planning projects to help spread environmental activism through going to protests and trying to make IHS a greener establishment.

The Environmental club has been involved in a variety of projects including workshops with the elementary schools encouraging sustainable crafts and lifestyle, planting a rain garden at IHS, participating in climate cafes in our area, and planning to add solar panels to the roof of the school. They have also done extensive research on how IHS can have its own composting facility.

Come visit the Environmental Club and be a part of the great work they do to protect and preserve our environment!

AMNESTY INTERNATIONAL

Amnesty International is a club that meets every other Tuesday during R block to discuss important issues happening all over the world. Amnesty International is a human rights organization that works to raise money to help enforce human rights globally as well as working on human rights infringements worldwide, whether it be the death penalty or people being falsely imprisoned.

Currently, the club is working on writing letters to governments and groups around the world asking for solidarity and freedom for people to get released from unjust prison sentences.

This club is only a year old, but it already has plenty of members! Come join Amnesty International next year!

IPSWICH ADVISORS AND MENTORS

The Ipswich Advisors and Mentors club is also commonly referred to as "I AM club". The program's goal is to provide younger students with mentors and role models that they may not have at home. The club works in collaboration with the Winthrop and Doyon Schools. Each month students go to elementary schools to be with the child that they have been paired up with

based on shared personality traits and hobbies.

High schoolers feel a genuine sense of pride in being able to help their elementary school "buddies". Realizing the impact that members have on the younger students is very rewarding for the student mentors and teacher advisors involved. I AM club has meetings every other week.

ROBOTICS

The robotics club meetings are underway in Mr. Gallant's room. Preparing for competitions means there is always something to do! There are lots of new members and retiring seniors who need to pass on their knowledge on to future generations of robotics club members.

Once competitions begin, the environment "provides students with a STEM environment which otherwise would not exist inside the school," says George Gallagher.

The demanding environment is a great way to let students approach analytical problems and figure out how to solve them. Many people may think that the robotics team has a cult-like community, but members insist that it is definitely not a cult.

ART CLUB

Ms. Pepe's Art Club holds weekly meetings every Thursday, where students can have an opportunity to work on art projects and have fun creating in a safe and fun environment. As one member said, "as long as it's art related you can do whatever you want." The art club is planning on taking its Juniors and Seniors to New York to visit some art colleges and participate in some competitions. The art club is a great place with lots of materials to let you express yourself in many different ways. All are welcome to drop by and check the club out!

GENDER

SEXUALITY

ALLIANCE

The main purpose of the Gender Sexuality Alliance (or GSA) is to create a safe space in school for LGBTQ+ students and to promote transparency for sex education.

GSA also opens up meetings to other students to encourage judgment-free dialogue. They also advocate as a group for education in other areas, working toward making improvements in the health curriculum.

The GSA is working on creating a personal library with LGBTQ+ positive books and stories. Come to Mrs. Slawon's room Monday's after school to check out what GSA is all about.

PURE PALS

Pure Pals club is one of the more recent clubs here at IHS, this being only its second year in action!

The club does many fun group activities with special education students and spreads awareness for people with disabilities. This club has created many new friendships and is a great opportunity for students to connect.

Launched last year, Pure Pals has been growing quickly, with bigger turnouts at every meeting.

MODEL

UNITED NATIONS

Things are heating up in Model UN as students prepare for the big conference in Boston this May.

The Model UN club is an experience that gives high schoolers the chance to be in situations which simulate high stakes decision-making without any of the risk.

The conference in May will teach students valuable public speaking skills, allow them to learn more about the thought process behind important decisions, and give them a chance to collaborate and compromise with others to come to solutions. Meetings are every Wednesday morning in preparation for the three-day conference, come and see what it's all about next year!

DEBATE CLUB

In Ms. Hayoz's room, the debate club is holding another heated debate. Sides are clashing, facts are stated, and arguments are deconstructed.

Students here wish to improve their debate skills. In the beginning of the year they learned the standards of debate and got a feel for it.

The club founder Shannon Gookin wishes to prepare her club members to go to a real debate conference at Pentucket. Gookin believes that a debate club is essential at IHS. She started the club because "we didn't have one before and it's a good thing to have!"

If you'd like to learn how to put together a strong argument and have some fun debates, come join debate club on Thursdays after school in Ms. Hayoz's room!

GLOBAL LANGUAGES

Every Friday morning, the Global Languages Club gets together in Ms. Killian's room to find ways to raise money for important international causes. One of their main causes is supporting the education of young children in third world countries. Their most recent is a 5-year-old boy named Elmer, who they have raised money for so that he can begin attending school.

Members of the Global Languages club like to know they are improving the environment of the school as well as making a positive impact on the world in general. They work toward many important causes and encourage you to get involved!

NATIONAL HONORS SOCIETY

Every Thursday morning to Mr. David Jones, NHS students work on organizing different extracurriculars, such as fundraisers to raise money for charity. NHS holds fundraisers, dances, and even movie nights to raise other money for school. NHS works with the school to help in the future.

One of their biggest fundraisers is the NHS Ball. The ball is a very important

event for the school. It is a very important event for the school. It is a very important event for the school. It is a very important event for the school.

The goal of NHS is to help the school. The goal of NHS is to help the school. The goal of NHS is to help the school. The goal of NHS is to help the school.

FOUR SQUARE CLUB

Down in the lower gym, the fierceness of four-square competitors radiates off of the court as a play is made.

Jonas winds up for a shot, hitting the ball with unstoppable power and grace toward Wyatt's square. Wyatt never stood a chance against combating such power and the ball goes flying out of his square before he can even react. The whole club cheers as he is outed from the number 4 spot.

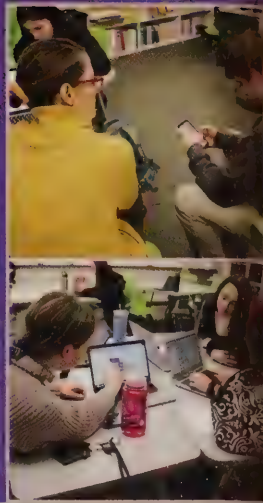

Clearly, the 4 square club works very hard on honing their skills and techniques. Meeting every day before cross-country and track practice, this club initially started with teammates looking for something to do as they waited for Coach Sue to meet them. However, over the last year, many non-runners have joined the club as well. Whether you simply find yourself in the lower gym after school or have a passion for four square, all are welcome to join in the game.

CODE CLUB

Code club is a great environment for people at all skill levels to and work on prepared coding projects or to start projects of their own. The club meets every Tuesday morning in Ms. Werner's room.

Code Club has an impact beyond working within the school's computer science department. Members of the club also mentor elementary school students in after-school programs. All members have the chance to volunteer for these positions to teach younger students how to code using simple fundamentals and techniques.

If you're interested in coding or computer science, come join Code Club!

DUNGEONS AND DRAGONS

Dungeons and Dragons (or D&D) is a tabletop role-playing game where players can make their own characters and story. The Dungeon Master, or storyteller, guides the players and gives them their choices. Decisions are largely based on luck. Players roleplay and talk to each other about what decisions to make.

D&D is a game that creates a community with tight bonds and relationships even away from the table, and many students in the club have formed strong connections.

The club meets after school on Thursdays and provides snacks for club members!

CHAMELEON

Whether scrolling on Instagram or simply walking by Ms. P's room, you've certainly come across an advertisement begging you to submit to the Chameleon. The Chameleon is a publication of written works by IHS students. Members of Chameleon work on advertising to get the word out about the publication and to get students' submissions. They also do some writing themselves from time to time.

The class compiles the submissions and decides which pieces they would like to publish, making an interesting final product of works from many different students. If you're interested in working on the Chameleon, you should definitely consider taking Ms. P's fiction or poetry class!

MATH LEAGUE

As the time starts to run short, the mathletes focus all the more on finishing the problems that they were given. With only 10 minutes allocate to solve three problems, the pressure is on.

The timer rings and pencils must go down. The IHS math league is a team of hardworking students who work on honing their math skills and computational ability.

Anyone is welcome to join and learn the tips and tricks that let the mathletes achieve their competitive problem-solving.

Come join the math league every Wednesday after school in Mr. Hughes's room to prepare for competitions that take place on the first Thursday of each month!

STEAM

Science, Technology, Engineering, Art, and Math

2019 Boston Student Racing Challenge

As the sound of cars racing by fills the air, students are doing their final touch ups before the big race. Julian explains what the racing team is and what is so great about it. When asked what he finds to be most crucial about racing, he says, "It isn't the process or what tools you have, but more who you are with and the community and friends that you have." The racing team is full of comradeship and friendliness in every aspect of the sport. Members all work hard on their cars and test them on many different terrains in preparation for their big competition.

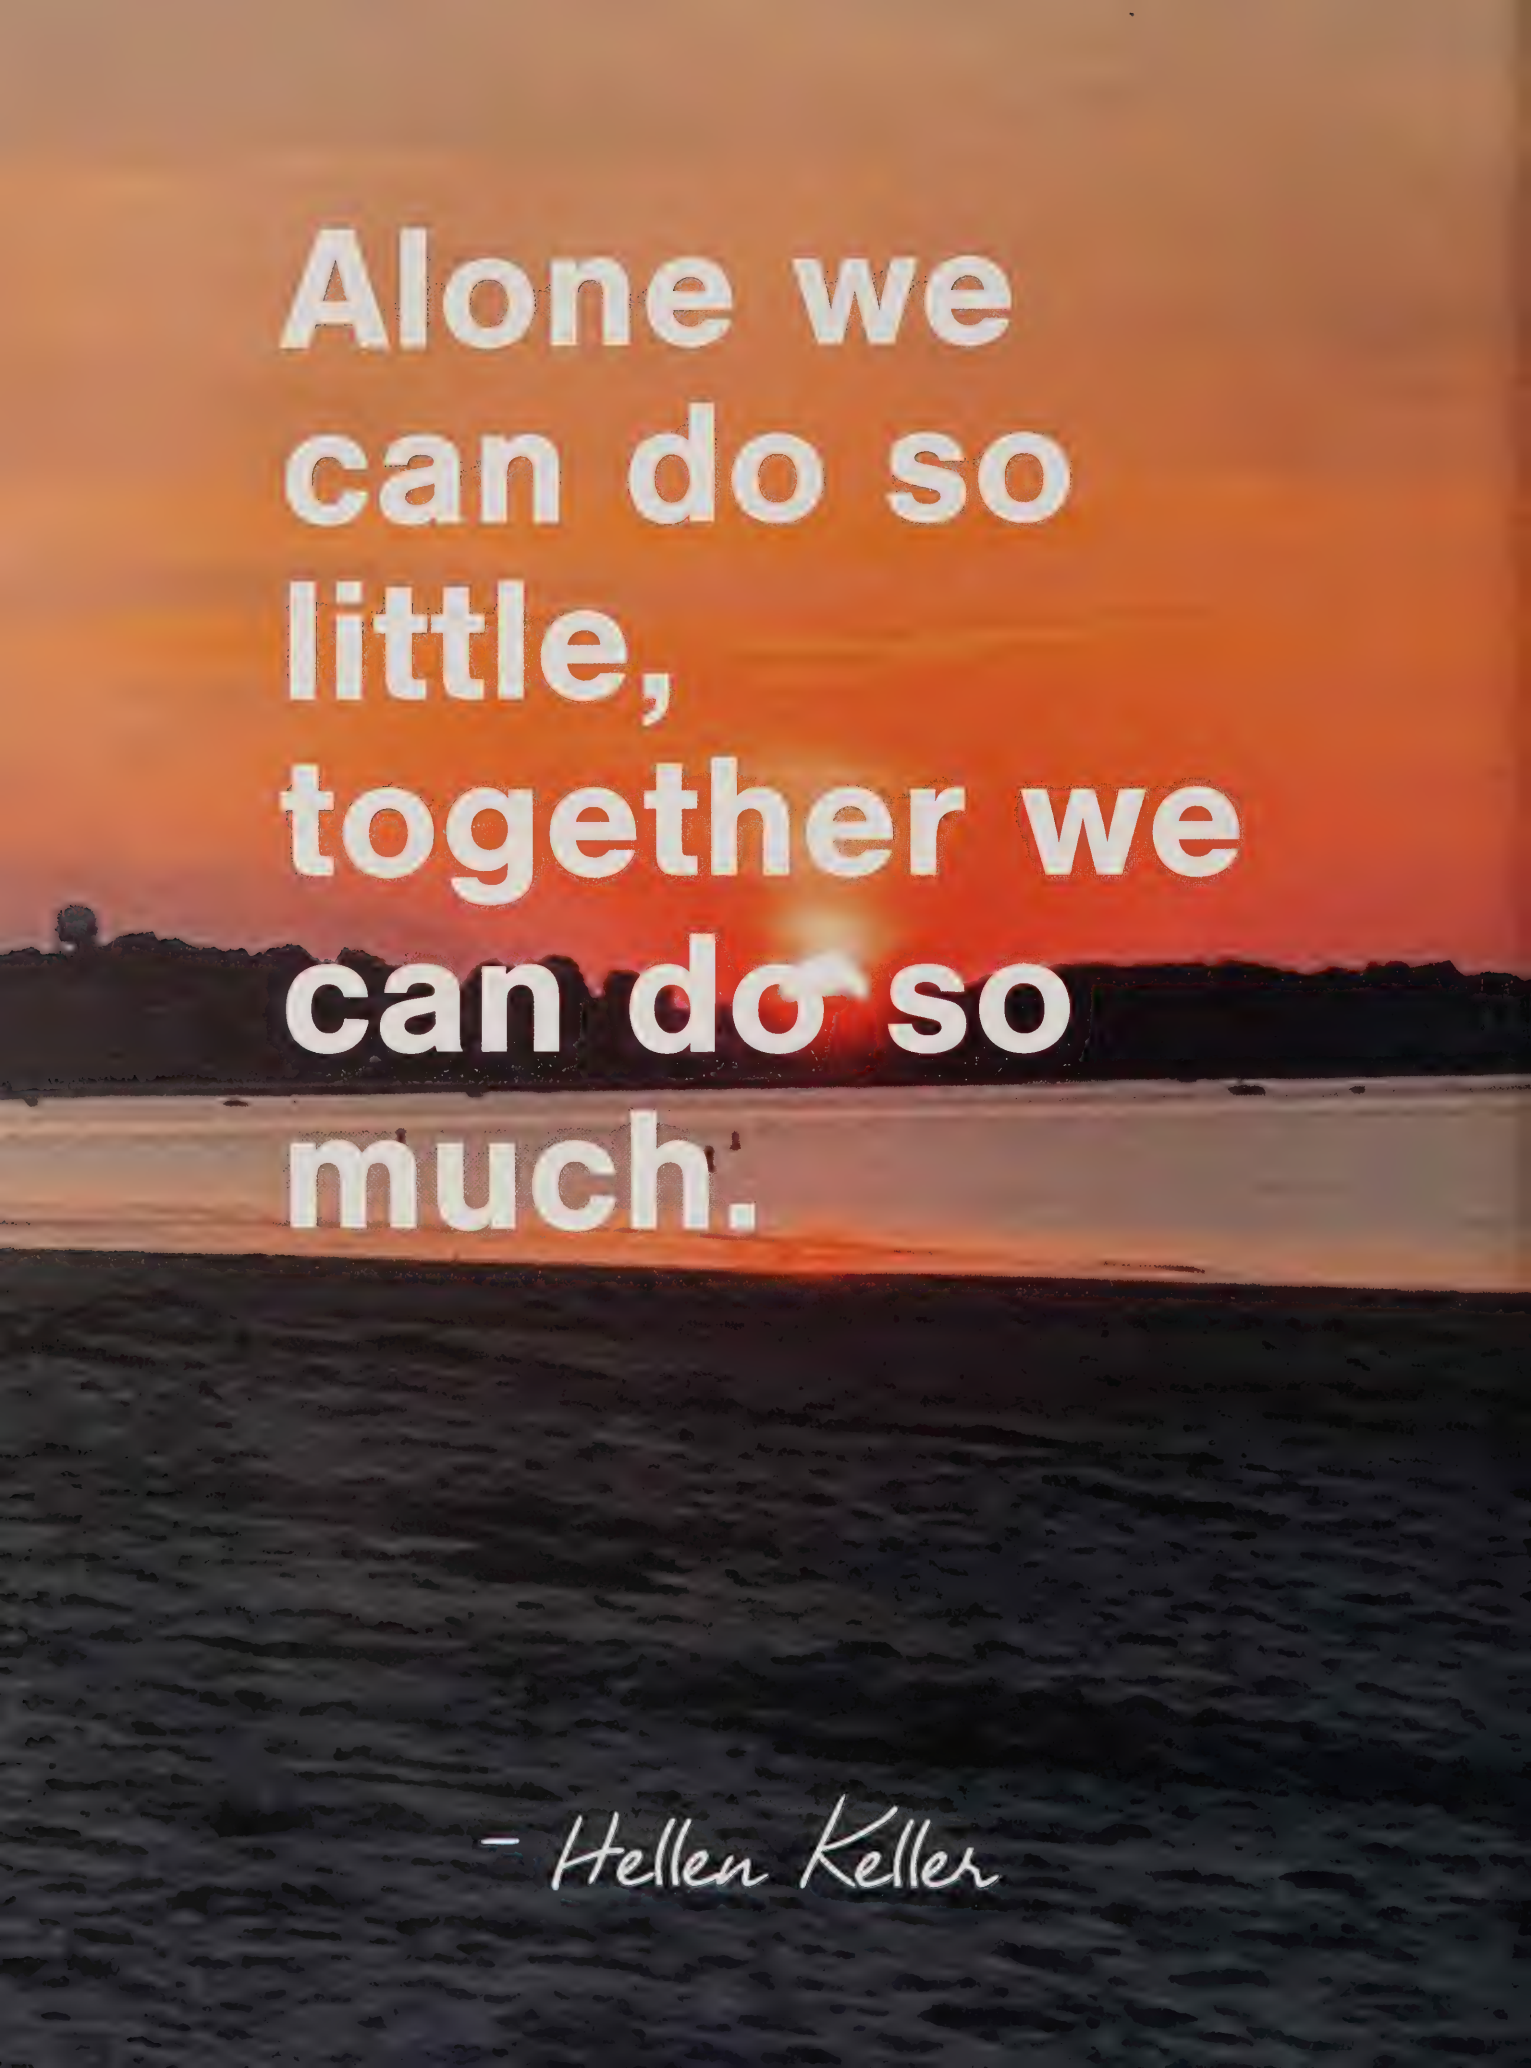

In the workshop
 Racing team members work
 on a new car chassis and
 improve their design while
 collaborating on their new
 project!

STUDENT LIFE

Summer

Making the Most of the Coast

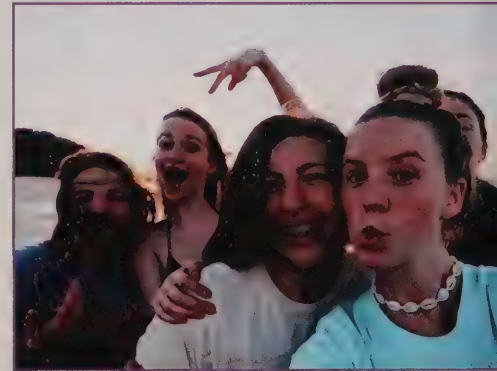

by Annie Gillis

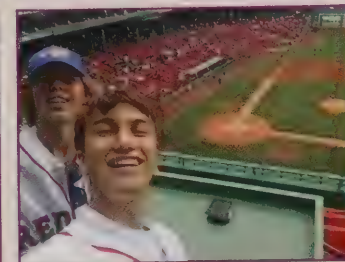

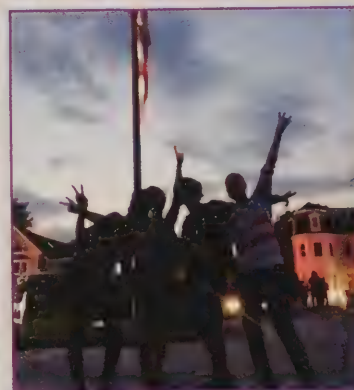

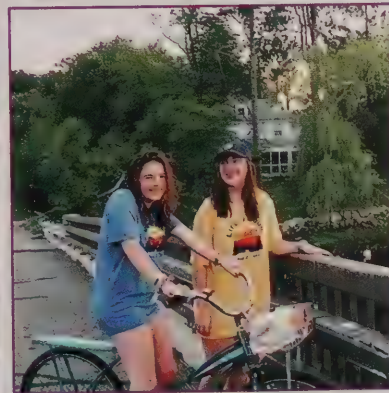

Nothing compares to coastal life in a small, beautiful town like Ipswich. With the coast, comes breathtaking sunrises and sunsets, beautiful beaches, and quality time with special family members and friends. There are ample opportunities to live a summer day to the fullest. "Most of my time is centered around the water," Kubaska says (pictured below).

Unlike most high school teenagers, Kubaska uses the water for more than leisure and fun, but for work. Before Kubaska takes a boat full of friends to the beach, he's got business to complete. A morning for him is waking up to an early alarm for a fishing adventure out on Ipswich Bay at his secret spot: Emerson Cove. After, he puts his commercial clamming license to good use, and later works for the Ipswich pump boat out of the Ipswich Bay Yacht Club. For the afternoon, he's free to buzz around the bay in his 20 foot motor boat.

When asked about his special spots to bring his friends, he said that he loves to anchor off of Steep Hill, Plum Island, or the back of cranes. When the tide reaches its peak, he zooms from the ocean, down the windy river, and to Labor and Vain Bridge for "bridge jumping". Finally, he anchors back at Steep Hill where he climbs up the back back path to Cranes' Castle for a concert where the town bonds over dancing to various local bands.

Other students at IHS enjoy biking or boating to Labor and Vain Bridge for a jump in the icy water at high tide. Most just enjoy a simple day of basking in the sunshine at beautiful Cranes' Beach. Many stay all day long to see the sun set. When it rises again in the morning, the same summer fun starts all over again. Some say, "west coast, best coast," but the eastern coast in the tiny town of Ipswich is where it's at.

A large group of students, mostly young men and women, are gathered together, many wearing orange and black clothing. Some are holding up phones to take photos or videos. The atmosphere appears to be one of excitement and celebration. The text is overlaid in a large, white, sans-serif font.

We didn't
realize we
were making
memories, we
just knew we
were having
fun.

TRAVEL

ENGLAND TRIP

International IHS

The England trip is one of the most highly anticipated events of high school for every IHS musician. Every four years Ipswich High School ventures across the Atlantic to tour England, and 2019 was the year.

Every day was a new adventure. Students explored from Bath to London, and Stonehenge to Oxford Street. Along the way, many facts were learned, photos were taken, and stories were shared.

The band, chorus, and orchestra performed three nights at all different locations, including a church in Bristol, a hall in Liverpool, and a Performance Arts Center in London.

These memories will never be forgotten by students a IHS, from bus rides, Janice and William Ahern, museums, Everybody's Talking about Jamie, to show stopping performances and magical music. The shared experiences created everlasting bonds that will be with these travelers forever.

French Exchange

Echange Français

Culturally Different

Traveling to a foreign country is never easy because one can never anticipate the impact of cultural differences. The smallest details are shocking. Regular traditions and little habits are blown out of proportion. Although travelers expect a language barrier, they never foresee the cultural contrast in lifestyle.

Thanks to the lesson that nothing is weird, only culturally different, the French exchange program has been very successful. The key to traveling is to embrace these differences. When the French students come here, they act like everything in Ipswich is from another planet. Ipswich students can't understand why they feel so lost until they visit the Mediterranean port city of Hyères and feel the exact same way.

Returning to France brings the program full circle. In addition to learning the language, students learn about the culture. While visiting French students likely remember apple picking and cheers during spirit week, their American counterparts remember tanning on the beach in winter, eating raclette at 10pm, and waking up to palm trees and mountains outside their windows.

Despite the initial shock, cultural differences become irrelevant. The bond between French and American correspondents grows so strong that differences go unnoticed by the end of the program. Although our towns and cultures are different, our hearts are the same.

To the Class of 2020 . . .

Congratulations for your imminent graduation from high school! Your hard work and dedication over the last twelve (or thirteen?) years has finally paid off in the form of a high school diploma. Well done!

That congratulatory statement was the easy part of this, my first yearbook letter to a graduating class. When I began to think about what I might write, I started to feel the pressure of saying something profound, to take the opportunity to impart some nugget of wisdom to the class of 2020. As I typically do when faced with a writing task, I have fallen back on my training as an English teacher- this time reminding myself to be aware of my audience.

Making this task even trickier is the fact that as the years go by, the audience for this letter will change.

I may be flattering myself, but you are likely going to read this letter multiple times. The first time you read it, you are a senior looking forward to graduation and conquering the world, or at least your portion of it. This first reading will be with the eager and likely anxious eyes of a young adult with a bright future ahead of him or her. It is also likely that you'll simply skim this letter as you flip through this glossy tome in search of funny candids or the superlatives page. And that's fine.

But a few years after that, you'll look through this same book with older and wiser eyes, perhaps in preparation for your class reunion so that you can put a name to the faces you'll see there. You'll be in the workforce, hopefully on your way towards buying your first home. You still stay up too late partying on the weekends though. Most of the teachers you had in high school still work here and miss you. The students we have now don't match your academic brilliance, maturity, talent, or athletic prowess. Or so we say.

Fast forward a decade or two. You now go to bed at 9:30 and wonder how you ever were able to stay up until 3. The audience for this yearbook has expanded to your own children with any luck. They search for your picture to make fun of your haircut, or perhaps marvel that you had hair at all. They'll ask you who you took to the prom, who your best friends were, who your favorite teacher (by now retired and living in a villa in Tuscany) was. The yearbook will become both a primary source and a window to the culture of Ipswich High in 2020. Together with your pictures now stored in multiple terabytes in the cloud, the yearbook will tell a story of your growth towards adulthood, a status to which there is never an easy and straight path. When you look at this yearbook as a seasoned adult, you will be tempted to think about regrets you have: your haircut in your senior portrait, the lame quote you picked to capture your wisdom, the sport you should have played, the musical instrument you gave up when you thought it wasn't "cool" anymore, the crush you didn't pursue, the crush you did pursue...

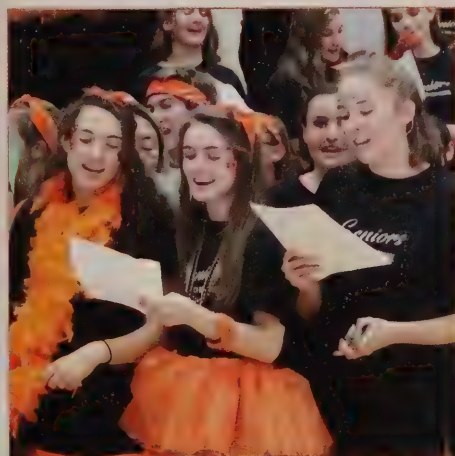

And that brings me to my final message: don't regret anything. We learn just as much from our missteps as we do our successes. Both contribute to our journey and make us who we are. And since you know that I am fond of quotes, here's one last one from comedian and actress Lucille Ball: "I'd rather regret the things I've done than regret the things I haven't done." I wish the class of 2020 a rewarding life beyond Ipswich High, one filled with appreciation for the defining moments that aren't captured by this yearbook.

Yours Truly,

Jonathan Mitchell, Principal

SENIOR CLASS OFFICERS AND ADVISORS

Chad Keveny (President), Emily Davidson (Treasurer), Ellie O'Donnell (Secretary), and Ethan Driscoll (Vice President)

Vice President Address

To the Class of 2020,

I can't believe we've come so far. It all started when we were constantly told we were the worst grade ever in middle school, and as a result, became the first and only grade to have the Ping and Ding system implemented. I count it as a win, although I'd like to think that we've gotten slightly better than that by now, but who knows. Actually, now that I think about it, we are the class responsible for setting off the sprinkler system and causing the entire lower gym to flood, so maybe we haven't gotten much better.

On a more serious note, there's a lot of behind the scenes work that often goes underappreciated. Notably, the effort and dedication that Mrs. Hayoz and Ms. Turner put in to make sure all of our events and fundraisers run smoothly. Without them, there's a good chance we wouldn't have any money or events at all.

There is one thing that I think we do particularly well, and that's show spirit. I don't think there's any grade that compares to us in terms of how well we rally around a specific cause. Whether that be spirit week or being annoyed about the bathroom doors being removed, it really is something that sets us apart. I hope all of us keep that same fire as we go to college (or not) and beyond. When life throws you challenges, just know that as long as you band together even under the stupidest things, you can get through it.

Best of Luck.

Ethan Driscoll
Vice President

THEN AND NOW

Thank you so much for
helping me throughout these
2 years and helping me
getting into college,
Definitely my favorite
teacher, Mrs. Smith

-Cam James

Ms. Chandler,

I am so happy that you have
been one of my teachers for
3 years! You are so kind and
encouraging and make students
feel at ease. Thank you for not
only helping me in class, but
calming me down when I'm
stressed. I will miss you so much.

-Grace Compagnello

Thank you Mrs. Killian
for being the most
supportive, passionate,
and determined teacher
I've ever had. You are
the reason I'm continuing
Spanish in college, and
I cannot thank you
enough for pushing me
hard and believing in
me. -Maddy Chesler

Thanks so much
Mrs. Fitzer! We would
definitely hang out with
you!

-Brett, Isaac, and Liam

Mr. Sargent,

Thank you for pushing me
to be the best writer I can be,
and always being a listening
ear. You're always the best
comic relief and a quiet source
of comfort on a rough day!

-Katie Z.

Dear Mr. Ames,

Thank you for being a
great mentor and helper
these past 4 years. Even if
I didn't have you as a teacher
every year, I would always be
in your room every week, and I
could go to you for anything.

Thank you for always being here
to talk to and learn from, I'll
(try to) take all your wisdom with me.
~Raphaella Pastos

Ms. Manos,

Thank you for taking
time to insure our
understanding. You have
helped me restore my
love for math, where I
had started to lose
faith & doubt myself.
You always make us
feel helped & understood.

Iza Marques

He'll, Ms. LaFrance,
thank you so much
from me and
Ethan for being
the nicest person
to us and everyone
everyday. We hope
to see you in the
future with your
Icicle Roadster-Julian D

Ms. Barclay

Thank you for the
Birthday cupcakes!
I will miss you and
your excitement for
eyeballs. -April

Thank you Mr. Lee for
being such an amazing
teacher for all my years
at High School. Thank you
for pushing me to become
a better musician. You
always made my day
better and for saying "yo"
to me in the halls!

-Elisabeth

Dear Mr. Sidmore,

Thank you for everything.
Between the snacks and
the gossip, you really
kept us going. You've
taught us so much and
we will miss you dearly.
Sincerely,

The OG Sid Crew Matt
Kylie

Dear Mr. Wood,

Thank you so much
for being such a big
influence for me during
all four years of high school.

From teaching my freshman
and sophomore English classes to
being an amazing soccer coach
my junior and senior years
you've always been there form
with words of encouragement.
Thank you so much - Katie Stokes

Dear Mrs. Scarano,
thank you for teaching
me for the past 8
years! You have
taught me so much
about the violin &
life I will miss
you & your family
so much!

-Carmyn K

Thank you Ms. P
for three years of
English class that shaped
who I am today.

-Aurora Gabriel

Dear Mrs. Smith, You
have let me be able to
express my full self in
Your class and be who
I truly am. Your jokes and
sarcasm brings a fun environment
in Your class. You've taught
me much about the world
and what we need to do
to make it better. I thank
for everything you've done.

-Andrew Gilligan

Mr. Mabbott,

I'd like to take a minute to
applaud you for putting up with
my constant tomfoolery. Whether
it be Isaac and myself's campaign
to introduce poker into our advisory
period, or the chaos that took place
in our business and entrepreneurship
class. You have stuck with us through
the years and kept us in line for the
most part. Thank you Bruce!

-Lucas Kubaska

Dear Mrs. Barclay,
Thank you so much for
supporting me over the
years and always being
there for me when
I needed you.

P.S. You make the
best cupcakes!

-Danielle Surpinski

Dear Mrs. Hayoz,
Thank you for being
a great teacher and my
BFF for the past 2 years
here. I will forever miss
AP Psych and interrupting
all of your classes. Thank
you for always being someone
I could come to during a
tough day at school. I'll be
sure to visit next year!
Thanks for everything,
Grace

Ms. Frost, Mr. Lee and Mr. Coelho,

I couldn't pick just one
of you to write to... you
have all made such a
difference in my life and
shaped me as both a musician
and a person throughout
high school. Thank you
for all of the opportunities
you've given me and my
classmates over the years.
It's been so much fun making
music together!

♡-Casey N

Ms. Abbott, Thank you
for not only being the
best teacher I've had, but
thank you for being by
my side all 4 years. Although
I only had you for one
year I feel like we've known
each other for a while. I
hope you and your family have
an amazing 2020 and 2021, and
I'm sure I'll see you later!
-Emma Thompson

Dear Ms. McShane,
Thank you for an amazing
past two years. Not only
are you a great teacher,
but an even better friend.
Thank you for letting me
rant to you and for
dealing with my dramatics.
I will miss you dearly.
Love,
Mei

Mr. Sidmore!

Thank you for housing
me during my independent
study. Thank you for
putting me on your quiet
wall and thank you for
selling me chips! It's been
a blast!

-Lydia B

MS. FRITZ,
Thank you for fun Fridays,
the donut parties, cheers and
balloons to, your hard
work, lack of tenure,
letting us roll the dice
every day, genuinely
being the best teacher
ever.

-APC10V

To Mr. Lee, Mr. Coelho, and Ms. Frost,
First of all, I apologize for all
of my incredibly awkward interactions
with you these 4 years - from telling
Mr. Lee I would throw up on him in the
hall to dancing wildly in the library
in front of Mr. Coelho. I have
thoroughly embarrassed myself in
front of you and remember it
all. But you have all changed my
life and I couldn't be more
grateful. Thank you for giving me
confidence, independence and,
most importantly, a love for music.
-Margot

WHAT WOULD IT BE LIKE IF...

- ▶ Alphonso didn't flirt with everyone?
- ▶ Chad didn't have a deep voice?
- ▶ We weren't the worst grade in the history of IHS?
- ▶ Isaac didn't play the trumpet?
- ▶ Jack Demarco never dyed his hair?
- ▶ We had bathroom doors?
- ▶ We never had the Ping and Ding system?
- ▶ Trevor didn't drive the Yimobile?

IT'S BEEN A GLORIOUS RIDE!!!

ADVICE TO UNDERCLASSMEN

- ▶ Do what makes you happy.
- ▶ Go to school events.
- ▶ Do not procrastinate.
- ▶ Don't waste your time with things that aren't worth your time.
- ▶ Join clubs and extracurriculars.
- ▶ Savor your high school years, have fun, and make memories.
- ▶ Take classes that you're interested in.
- ▶ If you believe in yourself and work hard, you will find yourself exactly where you need to be.

GOOD LUCK TO THE CLASS OF 2021!!!

Parent Recognition and Business Ads

Thank you for your
support!

Trevor MacRae

"Oh, the Places You'll Go!" -Dr. Seuss
Stay true to yourself and always be you. We can't wait for what life
brings you next. So proud of you!
Love, Mom & Dad, Morgan, and Nana

Kyleigh Larson

Kyleigh,
Remember these things in
your life:

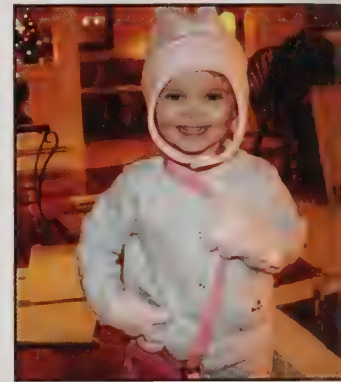

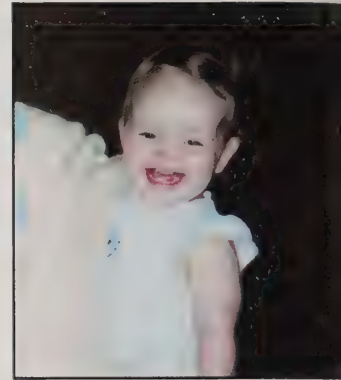

No matter where you go,
there you are.

Keep it Simple

Always show the world
your beautiful smile.

We believe in you.

We Love you forever and
ever and always.
Mom and Dad :)

Anna Jones

From your first steps to your final days of high
school, we have loved sharing all of life's
moments with you. We are so proud of you!
Always dream big and find joy in the little
things.
With all our love,
Mom, Dad, Carina, Sam and Max

Mariana Ferreira

Mariana,

There are so many ways to describe you. You are sweet, strong, brave and so much more. We are so happy to have you as our daughter and proud of you ! We have always believed in you and always will. God bless you! Nós te amamos!

Dad, Mom, Emily and Roberta

Fiona Mae O'Connell

An unknown source said,"maybe the journey isn't so much about becoming anything.Maybe it's about unbecoming anything that isn't really you,so you can be who you were meant to be in the first place."

Fiona, it seems as though your journey has been both long and short at the same time,if that is possible,but you have given us so much to be proud of in your 18 + years, on this earth!

Keep being you and discover all that this life has to offer.

All our love,
Mom and Dad

Kylie Smith

Kylie,
We could not be more proud
of you! Your gentle spirit and
loving smile and strong
determination will take you
places! Reach for the stars Ky!

We love you tons!

Brendan Duffy

Dear Brendan,
We are so proud of you and all your achievement! We can't wait to see what the future bring! Love,
Dad, Mom, Butch, Maddie, etc!

Ciera Doherty-Crestin

"Be who you are and say what you feel, because those who mind don't matter and those who matter don't mind."

- Dr. Seuss

With love and pride today and always,
Dad, Leahla, Caz, Cole, Carly, etc!

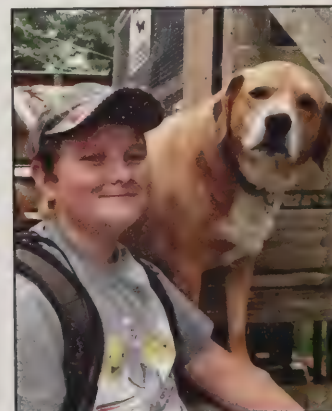

Bobby Grady

Congratulations,
Love Mom, Dad, Chris

Sam Corbett

Sam,
I couldn't be more proud of the kind, thoughtful young man you are. You have great days ahead of you! xoxo, Ma

Megan Callahan

Megan, We've watched you grow into a kind, confident and driven young woman who has accomplished so much. Continue to work as you do and all your dreams will come true! We wish you happiness and success.
Love Mom, Dad and Connor

Haley O'Connor

You did it, Haley! We are so proud of you and excited for your new adventures in VA. Set high goals, believe and stay true to yourself and you will accomplish much. We are always here for you!
Love, Mom, Dad and Meghan

Mya V. Cuevas

Dear Mya,
We are very proud of you and everything you have accomplished thus far. The world awaits you and we know you will do great things!
Love,
Mom, Dad, and Ray

Margaret C. Stone

Margaret,
We are so inspired by your confidence & beauty. Continue to challenge yourself and dream...you are unstoppable! We love you more than your heart can hold.
Love, Mom & Dad

"Fight for the things that you care about, but do it in a way that will lead others to join you" (RBG).

Lucas Kubaeka

Congratulations!!

We are so proud of all
you have done, and can't
wait to see what's next!
Love You! Mom, Dad & Liv
Pe. Make good choices!!

Charlie Dorries

We are all so proud of your hard work, Charlie!
Sending you off to your next adventure knowing
you will be awesome, Congratulations from your
Fam!

Ethan Driscoll

You did it!

Congratulations!!

We love you!!!

GO GET 'EM!!!!

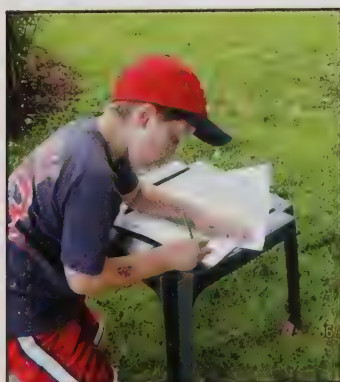

Brendan Hopping

Our hopes and
dreams as parents
have become the
reality in you. We're
so grateful for the
path you've taken and
the choices you've
made. A leader when
asked, a follower
when you knew it was
the right thing to do;
always kind, caring,
and supportive of
others.

Thank you for making
us so proud.

Love, Mom & Dad

Mei Bradford

Miss Mei Drives into Her Future

Meister, you have been a girl on fire since the moment
we met you. As you take the leap to start your own life,
and become the star of your own superhero movie, just
remember--no capes!

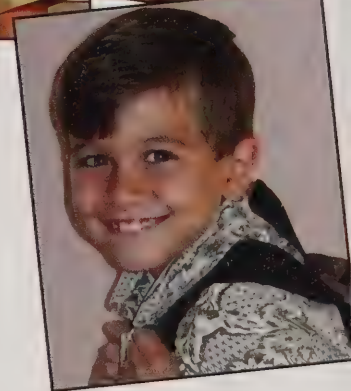

Love, Mom, Dad & Evie

Elsa Anderson

Dear Elsa,
You've come a long way, but your smile has never changed ! This chubby-cheeked baby has grown into a smart, outgoing and adventurous young woman. We are so proud of everything you have accomplished and look forward to discovering how much more you can do. Congratulations on surviving high school! With all our love, Mum & Dad

Connor Christian Perley

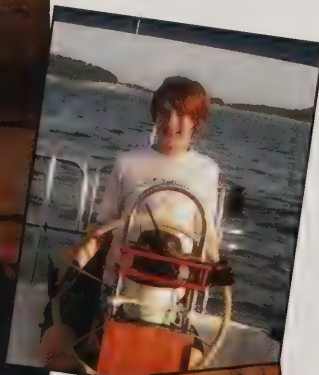

We are so proud of you!

Love, Mom, Dad & Chloe

P.S. Clean your room!

Evan Kneedler

Congratulations, Evan!
We are so proud of the young man you have become and we love you very much. Good luck at college next year - we're sure you'll do great!
Love, Mom, Dad, and Alec

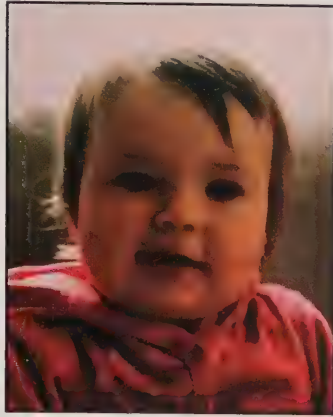

Camryn Knowlton

Daughters do wonderful things.
Not the wonderful things you expected them to do.
Different things. Astonishing things. Better than you ever dreamed.

We are so proud of you!
Love, Mom, Dad & Mimi

Bryn Weaver

Bryn Weaver, we love you inside and out. You are here to make the world a better place. Xoxo Mom, Dad, and Ow

Iza Julie Marques

Dear daughter, today I'm very proud of you. From now on, you are a graduate. I'm wishing you a very bright future. Best of luck for the next step. I can remember your first day at school. Even it seems like just a few days ago. And today you have completed your high school graduation. Congratulations from mom.

Katie Rokes

We are very proud of you and are excited to watch you start the next chapter of life. Work hard and follow your dreams. Know that we are always here for you! Love, Mom, Dad & Mackenzie

Dani Surpitski

Dani,
We are so proud of you and love you so much! You are amazing and whatever you choose for you will be right, always trust yourself. We will always be here to support you in whatever you do.
Love, Mom, Dad, Tommy, Grammie, Grampa, Tiger, Daisy, the Professor and Mary Ann ...

Liam Russell

We are so proud of you and excited for you to start the next chapter of your life!!

Love,
Mom, Dad & Finn

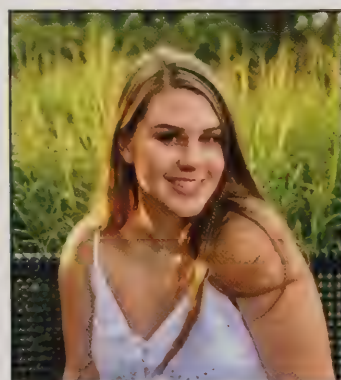

Collin Adams

Collin,
We are so proud of you and know that you will have a great future. We are looking forward to seeing all of your accomplishments.
Love,
Mom, Dad & Toby

Ellie O'Donnell

Ellie,
You've made us laugh, made us proud, and taught us something new every single day of your life. We can't wait to see what comes next!
You can do anything!
We love you, xoxo
Mom, Dad and Owen

"Go out into the world and do well - but more importantly, go out into the world and do good."

Heather Milano

Congratulations, Heather!!! Wow, 2020 got here quickly. We're so proud of the person you've become and can't wait to see what the future holds for you. Love you infinity! Mum, Dad, and Brian

Kyleigh Cranston

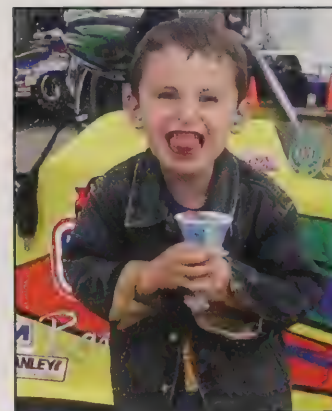

We're so proud of you!
You're a talented young
woman, a hard worker, and
most importantly, a
thoughtful and kind person.
Never let anyone tell you
different!

- Love Mom and Dad

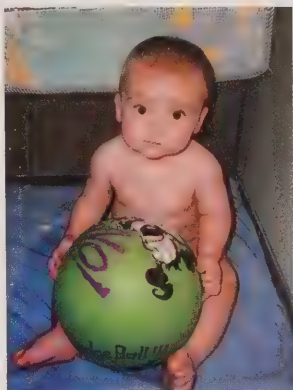

Brian Trefry

You've had a great four
years at IHS. We can't
wait to see what the next
chapter brings. You've
made us very proud.
Love, Mom, Dad and
Bridget.

Cam James

We are so proud of you
Cam! Love you! - Mom,
Lexi, gramma and papa.

Ken Wallace

"If life is but a dream, then
so are we." - Mac Miller

Congratulations! Love
Mom, Dad, Will, and Augie

Lilly O'Connor

Heels down, eyes up and
always ride towards your
dreams.

We love you!

Mom, Dad, Isabelle,
Quinn, and especially
Frankie!

Annie Gillis

Annie, you brighten all of
our days! You truly amaze
us with your determination,
strength, and beauty, inside
and out. You have a heart of
gold and we so look forward
to watching you continue to
shine in your next adventure.
We are very proud of you
and love you so so much!

Love, Mom, Dad, Charlie,
Pat, and Jack

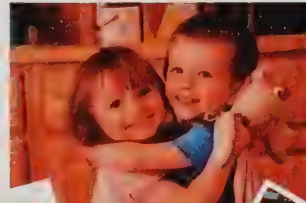

Grace & Pierce DeBoer

"If joy you win,
You must share it,
For happiness was born a twin."

**Congratulations to my
wonder twins!**

I'm so proud of you
both for all of your
accomplishments.

Love, Mom

It is not the critic who counts;
*not the man who points out how the strong
man stumbles, or where the doer of deeds could
have done them better. The credit belongs to
the man who is actually in the arena, whose
face is marred by dust and sweat and blood;
who strives valiantly; who errs, who comes
up short again and again, because there is no
effort without error and shortcoming; but who
does actually strive to do the deeds; who knows
great enthusiasms, the great devotions; who
spends himself in a worthy cause; who, at the
best knows in the end the triumph of high
achievement, and who at the worst, if he fails,
at least fails while daring greatly, so that his
place shall never be with those cold and timid
souls who neither know victory nor defeat.**

"Spent the morning at Cousins Automotive doing some necessary maintenance, **awesome and friendly service!** No other place to take your car, you'll be in good hands! See you after a few thousand miles for my next oil change and check up! Thanks Nate and Butch" - **ARTIE DIOLI**

SERVICES WE OFFER

MECHANICAL REPAIRS & DIAGNOSTICS

We can perform mechanical repairs such as brakes, suspension, engine, exhaust, drive train and many more. We also have the ability to diagnose any check engine light, ABS light, airbag light, tire pressure light etc. We pride ourselves in the value of repair service we provide.

VEHICLE CHECKS & INSPECTIONS

We perform pre-purchase and sale vehicle checks, pre-inspection check, or seasonal. This service is an in-depth look at potential wear on the vehicle from the brake condition, suspension, fluid and tire checks, scanning for codes, and more.

TIMING BELTS & HEAD GASKETS

We replace timing belts and most cylinder head gaskets and other engine related leaks. These issues can lead to poor engine performance, rough running conditions or leaking oil that may result in irreversible or severe engine damage to your vehicle and must be addressed as soon as possible.
